RE: PROPOSED NSP Case 800 - N. G. Penrose
PROPOSED NSL _____

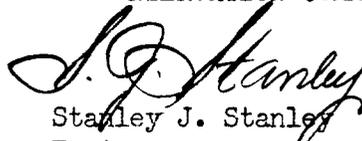

Dear Mr. Macey:

I have examined the application dated _____
for the Neville G. Penrose, Inc. Alves #3-P 7-21-37 Eumont
Operator Lease and Well No. S-T-R

and my recommendations are as follows:

Eumont gas production extends in areas named in the application of Case 800.
E. G. Rodman Curry #1 in Unit C of 7-21-37 produces from Queen and Grayburg
in Hardy pool. E. G. Rodman Alexander #1 in Unit L of 7-21-37 produces from
the Queen and Grayburg in the Penrose-Skelly pool, and since the lower zone
is nearly depleted it is actually a Eumont well. This is mentioned to prevent
the formation of gas proration units with oil wells in the same unit. It will
