Re: Application of Gulf Oil Corporation
for an Exception to Rule 309 to
Apply to their Lea State "DA" Lease,
Eumont Pool, Lea County, New Mexico

Gentlemen:

With reference to our letter dated September 30, 1955 concerning the above subject, this is to advise that the Lea State "DA" Lease is in Section 14-19S-36E rather than Section 14-19S-37E as stated in our letter of September 30, 1955.

Yours very truly,

CASE: 975

Attention: Mr. W. B. Macey, Secretary-Director

Re: Application of Gulf Oil Corporation for an Exception to Rule 309 to Apply to their Lea State "DA" Lease, Eumont Pool, Lea County, New Mexico.

Gentlemen:

Gulf Oil Corporation herewith makes application for an exception to Rule 309 of the Rules and Regulations of the New Mexico Oil Conservation Commission requesting permission to produce more than eight wells in the existing tank battery on Gulf's Lea State "DA" Lease in the Eumont Pool, composed of the E/2 of Section 11 and the N/2 of Section 14-19S-30E, Lea County, New Mexico. In support of this request Gulf Oil Corporation states the following:

- (1) That all of the Lea State "DA" Lease described above has the same royalty interest.
- (2) That the existing battery on the Lea State "DA" Lease now handles production from eight Eumont wells. A ninth well will be completed in the near future.
- (3) That the central tank battery will have adequate facilities to permit taking of all required tests.
- (4) That the granting of this application will result in substantial savings in steel, reduce the costs of operation and maintenance, prevent waste, and protect correlative rights.

Therefore, Gulf Oil Corporation respectfully requests that the New Mexico Oil Conservation Commission set a certain day upon which this matter may be heard, and after said hearing grant permission for applicant to utilize the existing battery for storage of production from the ninth well to be completed in the near future, and for future Eumont wells which may be drilled on the above mentioned lease, the maximum to be eleven wells.
