

BEFORE THE OIL CONSERVATION COMMISSION
OF THE STATE OF NEW MEXICO

APPLICATION FOR APPROVAL OF NON-STANDARD GAS PRORATION UNIT CONSISTING OF LOTS 12 and 13 and $E\frac{1}{2}SW\frac{1}{4}$, SECTION 18; ALSO LOTS 6, 7, 12 and 13 and $E\frac{1}{2}SW\frac{1}{4}$, SECTION 19, ALL IN TOWNSHIP 30 NORTH, RANGE 7 WEST, IN THE NORTHEAST BLANCO UNIT AREA, BLANCO-MESA VERDE GAS POOL, SAN JUAN and RIO ARRIBA COUNTIES, NEW MEXICO.

CASE NO. 1009

A P P L I C A T I O N

Comes now Blackwood & Nichols Company and respectfully submits this application for a non-standard gas proration unit consisting of Lots 12 and 13, and $E\frac{1}{2}SW\frac{1}{4}$, Section 18; also Lots 6, 7, 12 and 13, and $E\frac{1}{2}SW\frac{1}{4}$, Section 19, all in Township 30 North, Range 7 West, San Juan and Rio Arriba Counties, New Mexico. Said tract contains 307.44 acres and applicant proposes to drill a well in the $SW\frac{1}{4}$ of Section 19, Township 30 North, Range 7 West.

The applicant states that the acreage contained within the proposed non-standard proration unit lies wholly within the Northeast Blanco Unit, San Juan and Rio Arriba Counties, New Mexico and is within the Blanco-Mesa Verde Gas Pool in said counties.

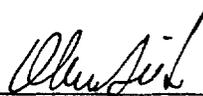

The applicant proposes the above described acreage be established as a non-standard unit in exception to Rule 1 of Order R-128-D, heretofore entered by the Commission.

Applicant further shows that the $W\frac{1}{2}$ of Section 18 and the $W\frac{1}{2}$ of Section 19, in Township 30 North, Range 7 West, are smaller than the normal half sections, according to governmental surveys; consequently, the applicant is prevented from forming standard proration units.

Applicant requests that if it is in conformance with the rules of the Commission, that this matter be set down for a hearing before an examiner following the regular hearing of the Commission scheduled for January 19, 1956.

Respectfully submitted,

SETH & MONTGOMERY
