Mr. A. L. Porter, Jr.
Oil Conservation Commission
P. O. Box 871
Santa Fe, New Mexico

Dear Mr. Porter:

Attached are three (3) copies of my application as Agent for San Juan Gas Corporation for an order temporarily establishing 320-acre drilling units for the Pictured Cliffs formation for certain lands in Ts. 24 and 25 N., R. 2 W., N.M.P.M., Rio Arriba County, New Mexico.

Also attached for your information are three (3) copies of a map showing the area involved in the above mentioned application and one (1) copy of my memorandum dated March 19, 1956, regarding a conference held in Washington, D. C., on March 8, 1956, relative to the proposed Gavilan Unit Agreement which is the basis for the request for the temporary well spacing order.

You will note in the application that request is made that the matter be set for examiner hearing at Santa Fe at your earliest convenience.

Your cooperation in this matter is sincerely appreciated.

Very truly yours,

Foster Morrell

Dear Mr. Mankin:

By letter of April 21, Mr. Jason W. Kellahin furnished me with a copy of his protest as Attorney for R. and G. Drilling Company, Inc., in Case No. 1066. Under your rules and regulations this will automatically continue the examiner hearing in this case set for May 9 to the regular hearing on May 16, 1956. I suppose that notice of this continuance will be covered in the docket to be published for the May 16 hearing and that it will be unnecessary for me to appear in your office in Santa Fe on May 9 for this case.

Please confirm.

Very truly yours,

Foster Morrell

Case 1066

IN REPLY REFER TO:

UNITED STATES
DEPARTMENT OF THE INTERIOR
GEOLOGICAL SURVEY

1956 MAY 11 PM 10:37
P. 10:37 Box 6721
Roswell, New Mexico

May 10, 1956

Mr. A. L. Porter
Secretary-Director
Oil Conservation Commission
Santa Fe, New Mexico

Dear Mr. Porter:

In connection with our recent discussion of the application of the San Juan Gas Corporation (Case 1066) for an order establishing 320-acre Pictured Cliffs drilling units in the Gavilan area, I have received the following information from Mr. H. G. Barton, Chief, Oil and Gas Leasing Branch, U. S. Geological Survey, on the commitments allegedly made to Foster Morrell and E. Alex Phillips of San Juan Gas Corporation by Survey representatives in Washington:

"On March 8, Messrs. Morrell and E. Alex Phillips discussed the case here in a little more detail but no commitments were made or waiver of procedure indicated. Morrell's memorandum of March 19 as to his understanding of the discussion covered the points discussed but possibly gave you misleading impressions by the poor or over-zealous choice of terms, such as "conclusions reached," "agreed to orally," and "preference for 320-acre drilling blocks."

Actually no commitments whatever were made, but willingness to permit the filing of proposals discussed was indicated in order that the merits of such proposals could be decided upon the basis of the supporting presentations, which certainly should include the proponent's, yours, the State's, and any other's pertinent. If in Morrell's eagerness to win some point he has been a little too zealous or emphatic in his assertions, you should not be either surprised or alarmed but present your arguments as you see them without fear of your being bypassed here.

As for the block-type unit versus the standard form, the extent of our commitment was that the block-type unit appeared to better suit certain units under favorable conditions. As for the 320-acre spacing, we indicated surprise that 320-acre

spacing may be used for the shallow Pictured Cliffs formation, but if the Supervisor, the State, and the unit operator were of the opinion that field conditions warranted such spacing, even on a temporary basis, we would consider the facts when presented. However, full justification would be expected. Accordingly, the discussion of a 320-acre block type unit carried no commitment whatever as to acceptable spacing other than to review a proposal when submitted."

The foregoing information shows conclusively that our Washington office made no commitments to Mr. Morrell and to Mr. Phillips regarding 320-acre spacing for Pictured Cliffs production in the Gavilan area. This office is of the firm opinion that the results of drilling in the Gavilan area to this time present no evidence upon which 320-acre spacing for Pictured Cliffs production could reasonably be based.

Sincerely yours,

A handwritten signature in dark ink, appearing to read "John A. Anderson", written over a horizontal line.

JOHN A. ANDERSON
Regional Oil & Gas Supervisor

Re: Proposed Gavilan Unit
Rio Arriba County, New Mexico

Mr. Foster Morrell
Nickson Hotel Building
Roswell, New Mexico

Dear Sir:

Your letter of May 2, addressed to Mr. Cashman, has been referred to the writer for reply. You advise that Case 1066 has been set for hearing 9:00 A.M. on May 16 in Santa Fe, which hearing is to cover the subject matter of 320-acre drilling and spacing units.

This is to advise that Skelly has no objections to the issuance of an order temporarily establishing 320-acre drilling units for the Pictured Cliffs formation.

Yours very truly,

George W. Selinger
