Dear Sir:

In re: Docket No. 22-56
Case 1098: Readvertisement

Sun Oil Company has Docket No. 22-56 which contains readvertisement of Case No. 1098 concerning Sun Oil Company application for unorthodox location and non-standard drilling unit for its B. T. Lanehart Well No. 3 in the Crosby-Devonian Pool in exception to Section 2 (a) and (b) of Order R-639.

This matter was originally heard before Commission Examiner on July 11 at Hobbs, N. Mexico. Testimony was presented at that hearing by Mr. Hans Winkler, Geologist for Sun Oil Company, to the effect that a well could not be located 660 feet from the lease line because a well was already located at that point; and that this was an attempt to complete an oil well in the Crosby-Devonian Gas Pool at approximately the same structural position as the Olsen-Owens No. 1 to the east of our proposed well. The testimony presented at the hearing on July 11th would not be changed at the hearing on August 7th; all conditions that applied at that time still exist.

We shall appreciate your considering this affidavit as our evidence for the hearing called under Docket No. 22-56 for Case 1098 to be heard in Santa Fe at 10:00 A.M., on August 7th.

Very truly yours,
A. R. Ballou
