Attention: Mr. A. L. Porter, Jr., Secretary-Director

Re: Application of Gulf Oil Corporation for an Ex-  
ception to Rule 309 to Apply to Their J. F.  
Janda "F" Lease, South Eunice Pool, Lea County,  
New Mexico

Gentlemen:

Gulf Oil Corporation herewith makes application for an exception to Rule 309 of the Rules and Regulations of the New Mexico Oil Conservation Commission requesting permission to produce more than eight wells into the existing tank battery on Gulf's J. F. Janda "F" Lease, Section 4, T-22-S, R-36-E, Lea County, New Mexico. The wells located on subject lease are producing oil from the South Eunice Pool. In support of this request, Gulf Oil Corporation states the following:

- (1) That there is no diversity of royalty ownership under the J. F. Janda "F" Lease which comprises all of Section 4, T-22-S, R-36-E, Lea County, New Mexico.
- (2) That the existing battery, located 3350 feet from the north line and 1450 feet from the west line of Section 4, now handles production for eight Eunice, South wells. The ninth well is in the process of being completed.
- (3) That the central tank battery will have adequate facilities to permit taking of all required tests.
- (4) That the granting of this application will result in substantial savings in steel, reduce the cost of operation and maintenance, prevent waste, and protect correlative rights.

March 6, 1957

Therefore, Gulf Oil Corporation respectfully requests that the New Mexico Oil Conservation Commission set a certain day upon which this matter may be heard, and after said hearing grant permission for applicant to utilize the existing battery for storage of production from the ninth well to be completed in the near future, as well as for future South Eunice wells which may be drilled on the above-described acreage, the maximum to be sixteen wells.

Respectfully submitted,

GULF OIL CORPORATION
