CASE 1426

Hearing Date 9 A.M. May 6 - DSN at SF

My recommendations for an order in the above numbered cases are as follows:

I recommend that the non-standard gas proration unit for the Blinebry Gas Pool be approved as requested by applicant. The interests in proposed unit have been communitized. Applicant proposes to dually complete a well in the Blinebry. If well is productive from the Blinebry, ~~acreage it will have productive from gas in that pool.~~

*the acreage will have been proven
productive of gas ^{in its entirety} from that pool.*
