Re: Application for 320-acre Eumont Non-Standard Gas Pro-  
ration Unit to be Assigned to Gulf's J. F. Janda "D"  
Well No. 1

Gentlemen:

Gulf Oil Corporation respectfully submits application for a 320-acre non-standard gas proration unit consisting of Lots 13, 14, and the SW/4 of Section 2, and the N/2 of the NW/4 of Section 11, all in T-21-S, R-36-E, Lea County, New Mexico. It is requested that the Commission set this matter for Examiner Hearing at an early date.

The following facts are offered in support of this application:

- (1) The above described 320 acres consists of Gulf Oil Corporation's 160-acre J. F. Janda "D" Lease, Gulf's 80-acre R. R. Bell "E" Lease, and Cities Service Oil Company's 80-acre State "G" Lease, as shown on the attached plat.
- (2) By Administrative Order NSP-53, dated January 5, 1955, Gulf Oil Corporation was authorized to operate its J. F. Janda "D" Lease comprising Lots 13 and 14 and the N/2 of the SW/4 of Section 2, T-21-S, R-36-E, as a 160-acre non-standard gas proration unit assigned to J. F. Janda "D" Well No. 1.
- (3) As a result of gas pooling and operating agreements between Gulf and Cities Service, the NMOCC by Administrative Order NSP-201, dated November 9, 1955, authorized a 240-acre non-standard gas proration unit consisting of Gulf's 160-acre Janda "D" and the Cities Service 80-acre State "G" Leases, with such unit being ascribed to Gulf's J. F. Janda "D" Well No. 1.
- (4) The proposed unit well, located 1980 feet from the south line and 660 feet from the west line of said

June 16, 1958

Section 2, was recompleted as a single zone gas well in the Eumont Pool on October 3, 1954, at a plugged back depth of 3645 feet. This well is producing through casing perforations from 3435 feet to 3555 feet.

- (5) Subject to the approval of this application, Gulf and Cities Service have amended the original Communitization and Operating Agreements to include Gulf's 80-acre R. R. Bell "E" Lease as an addition to the originally approved 240-acre unit. Gulf Oil Corporation is requesting that the above described acreage be established as a non-standard 320-acre gas proration unit in exception to NMOCC Order R-520.
- (6) By copy of this letter of application, all operators within 1500 feet of the proposed unit well are notified of the intent of Gulf Oil Corporation to form the proposed non-standard gas proration unit.

Respectfully submitted,

GULF OIL CORPORATION
