Attention: Mr. C. L. Wade

Administrative Order PLC-33

and

CANCELLATION

Administrative Order CTS-32

Gentlemen:

Reference is made to your application dated July 10, 1969, for administrative authority to commingle Blinbry, Tubb-Drinkard, Ellenburger, Montoya, and Fusselman production on your A. B. Coates "C" and "D" Leases in Section 24, Township 25 South, Range 37 East, Lea County, New Mexico. It is our understanding that all production from both leases is of common ownership; further that all production with the exception of the Ellenburger on the "C" lease and the Blinbry on the "C" lease is of marginal nature and that you therefore propose to commingle in the following manner:

System No. 1: Commingle "C" Ellenburger, Montoya, and Fusselman production after separately metering the Ellenburger production and determining total Montoya and Fusselman production by means of the subtraction method. Allocation of this total would then be to each pool and each lease on the basis of net oil computer tests.

System No. 2: Commingle "C" Blinbry and Tubb-Drinkard production and "D" Blinbry and Tubb-Drinkard production after separately metering the Blinbry production and determining the total Tubb-Drinkard production by means of the subtraction method. Allocation to each of the two leases would then be on the basis of monthly net oil computer tests.

CANCELLATION  
Administrative Order CTB-32**

**C  
O  
P  
Y**

Pursuant to the authority granted me under the provisions of Rule 303 (b) and Rule 309-B of the Commission Rules and Regulations, you are hereby authorized to commingle the production from the aforesaid pools and leases in the above-described manner. Provided however, that the installation shall be operated in accordance with the provisions of the Commission "Manual for the Installation and Operation of Commingling Facilities," including the requirement for non-reset counters on the meters, and that you shall notify the Commission in the event that any of the production which is now of marginal nature should become capable of top allowable. You are further requested to notify the Hobbs District Office of the Commission at such time as the revision of the installation is complete in order that an inspection may be made thereof.

Administrative Order CTB-32 dated September 25, 1958, which authorized certain commingling on the subject leases, is hereby superseded, and Commission Orders Nos. R-1297 and R-1330-A, which also authorized certain commingling on these leases, are hereby put in abeyance.

It is the responsibility of the producer to notify the transporter of this commingling authority.

Very truly yours,

**A. L. PORTER, Jr.  
Secretary-Director**

Mr. Oliver Seth  
P.O. Box 828  
Santa Fe, New Mexico

Dear Mr. Seth:

On behalf of your client, Tidewater Oil Company, we enclose two copies of Orders R-1291 and R-1297 issued November 26, 1958, by the Oil Conservation Commission in Cases 1549 and 1550, respectively.

Please note that Order R-1297 requires that each meter installed in the subject system shall be tested for accuracy at intervals and in a manner satisfactory to the Commission. It will be necessary for Tidewater Oil Company to run a series of tests of sufficient duration to determine that the meters are functioning properly immediately following installation. Thereafter, tests should be made at intervals not to exceed one month and a report of said calibration filed with the Commission. The meters shall be calibrated against a master meter or against a test tank of measured volume.

Very truly yours,

A. L. Porter, Jr.  
Secretary - Director

New Mexico Oil Conservation Commission  
P. O. Box 781  
Santa Fe, New Mexico

Gentlemen:

Texas-New Mexico Pipe Line Company as transporter of crude oil from Tidewater Oil Company's A. B. Coates "C" lease has no objection to co-mingling of similar classification crude oils and approves co-mingling of the Ellenberger, McKee, Fusselman and Montoya crudes from this lease.

Very truly yours,

TEXAS-NEW MEXICO PIPE LINE CO.

September 15, 1958

Tidewater Oil Company  
P. O. Box 547  
Hobbs, New Mexico

Attention: Mr. H. P. Shackelford

Gentlemen:

By letter of September 10, 1958, you request our approval to commingle oil produced from the Ellenburger, McKee, Montoya and Fusselman zones on your lease Las Cruces 032650(b) into a common tank battery. You propose to measure the production from each zone separately prior to being commingled.

No objection is offered to the method that you propose for measuring and selling oil from the lease, provided, that approval is obtained from the New Mexico Oil Conservation Commission for proration purposes.

Very truly yours,

JOHN A. ANDERSON  
Regional Oil and Gas Supervisor
