Mr. Robert L. Borton  
Geologist  
Roswell, New Mexico

Dear Bob:

Enclosed herewith is a copy of analysis from the water wells to be used by Texas Consolidated Oils in their pilot water flood program in Section 34, Township 16 South, Range 30 East. This water is to be taken from the Santa Rosa formation at 400 feet below the surface at two wells situated in the SE $\frac{1}{4}$  of Section 33, Township 16 South, Range 30 East. This analysis was obtained and is submitted to you with the thought in mind that it would be of value in determining the quality of water in the Santa Rosa formation in general.

Yours truly,

S. E. Reynolds  
State Engineer

Case 1614*

New Mexico Oil Conservation Commission  
321 Carper Building  
Artesia, New Mexico

Dear Sirs:

In compliance with your Rule #703, Paragraph "A", we are notifying your commission that July 19, 1959, was the commencement date of the injection of water at our Square Lake Pool pilot water flood, Eddy County, New Mexico. Water is being injected through the following described wells:

- Etz "C", Well No. 1, NW/4 SE/4, Section 34
- Etz "E", Well No. 2, SE/ NE/4, Section 34
- Etz "E", Well No. 3, NW/4 NE/4, Section 34
- Leonard, Well No. 5, SE/4 NW/4, Section 34

All in Township 16 South, Range 30 East, N.M.P.M., Eddy County, New Mexico.

This pilot water flood project was approved by your Commission on March 18, 1959, after a hearing in Santa Fe on March 11, 1959, Case No. 1614, Order No. R-1354.

Upon the conclusion of the current month and each succeeding month, we shall submit forms C-120, required by your Rules 704 and 1119.

Sincerely yours,

*Paul Gregory*
