\* Should waivers from all offset operators not accompany an application for administrative approval, the New Mexico Oil Conservation Commission will hold the application for a period of twenty (20) days from date of receipt by the Commission's Santa Fe office. If, after said twenty-day period, no protest nor request for hearing is received by the Santa Fe office, the application will then be processed.

NOTE: If the proposed dual completion will result in an unorthodox well location and/or a non-standard proration unit in either or both of the producing zones, then separate application for approval of the same should be filed simultaneously with this application

Re: Continental Oil Company's  
Application for Hearing  
for the Gas Oil Dual Comple-  
tion of the Britt E-15 No. 9  
in Undesignated Pools, Section  
15-20S-37E, Lea County,  
New Mexico

Gentlemen:

Please find attached three copies of a corrected lease plat showing the proposed gas proration unit for the Britt E-15 No. 9. These plats are to replace the ones forwarded to you under our letter of May 11, 1959, regarding Continental Oil Company's application for hearing for the dual completion in undesignated pools of the Britt E-15 No. 9. Since this application has nothing to do with the gas proration unit, it is believed that this change in the proration unit will not affect the original application for dual completion. A corrected copy has been forwarded to each of the offset operators listed in the application for dual completion.

Should this change in the proposed gas proration unit change the application for dual completion sufficiently to warrant additional notification time, it is requested that the case be continued until the next hearing.

Yours very truly,

A handwritten signature in cursive script, appearing to read "R. L. Adams".
