ADDRESS ALL CORRESPONDENCE TO
POST OFFICE BOX 180

New Mexico Oil And Gas Conservation Commission
State Capital Building
Santa Fe, New Mexico

Attn: Mr. Elvis Utz

Gentlemen:

Re: Requested Data
British-American's Proposed W. Bisti Unit

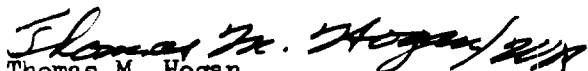

In compliance with your request, we are sending you the following information:

1. The bottom hole pressure subsea datum in the lower Gallup Sand is +1300 feet. BHP surveys are normally run once per year.
2. The average bottom hole temperature of the lower Gallup Sand is 145° F.
3. We have no record of any laboratory or calculated Z factor.

If there is any other information you desire, please let us know.

Very truly yours,

THE BRITISH-AMERICAN OIL PRODUCING COMPANY

Thomas M. Hogan
District Superintendent
