Re: Order No. R-1631  
Case No. 1914

Gentlemen:

Enclosed herewith are two copies of Commission Order No. R-1631, entered by the Commission March 14, 1960, in Case No. 1914.

You will note that this order approves the Pebble Queen Unit Agreement, authorizes a Lease Automatic Custody Transfer System to handle production from said unit area, and permits the institution of a waterflood project, with initial injection through six injection wells.

According to our calculations, the maximum allowable which the project area will be eligible to receive, under the provisions of Rule 701-E-3, when the six wells have been placed on injection, will be 840 barrels per day.

Please report any error in this calculated maximum allowable immediately, both to the Santa Fe office of the Commission and the appropriate District Proration Office.

In order that the allowable assigned to the project may be kept current, and in order that the operator may fully benefit from the allowable provisions of Rule 701, it behooves him to promptly notify both of the aforementioned Commission offices by letter

of any change in the status of wells in the project area, i.e., when active injection commences, when additional injection or producing wells are drilled, when additional wells are acquired through purchase or unitization, when wells have received a response to water injection, etc.

Your cooperation in keeping the Commission so informed as to the status of the project and the wells therein will be appreciated.

Very truly yours,

Our No. 127-27

Gentlemen:

In connection with the captioned matter and in order to comply with Section 3, Expansion of the Unit Agreement, we enclose herewith to each of you the appropriate number of copies of:

- (a) Comprehensive statement as to mailing of Notice of Expansion.
- (b) Application for Expansion.
- (c) Appropriate joinders in compliance with the expansion requirements of Section 13, Tracts Qualified for Unit Participation.

Since the original documents were not previously furnished to the Director, we are enclosing to him the appropriate counterparts of:

1. Unit Agreement.
2. Ratifications by record title holders, working interest owners and royalty owners.
3. Unit Operating Agreement.
4. Commissioner Approval.
5. Commission Approval.
6. Revisions of Exhibit "B".
7. Revisions of Exhibit "C".

In connection with Section 30, Non-Joinder and Subsequent Joinder, of the Unit Agreement, and in order to complete the effectiveness of the above expansion by committing the expansion tracts to the unit agreement, we are enclosing herewith to each of you:

U. S. Geological Survey  
Commissioner of Public Lands  
New Mexico Oil Conservation Commission -2-

August 18, 1961

- (d) Ratification and Joinder by each applicable record title holder, working interest owner and royalty owner to the tracts embraced in the expanded area.
- (e) Counterparts of a letter from the Unit Operator setting forth in as much detail as possible how the participation formula for the expanded tracts was arrived at.

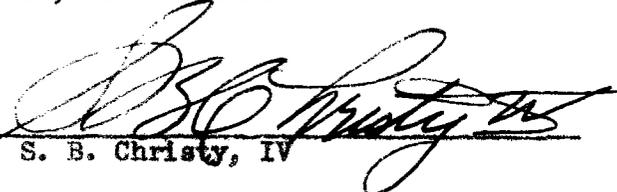

As is stated in said Section 30, the Subsequent Joinder is to be effective at 7:00 A.M. as of the first day of the month following the above filings with the Commissioner (and the Director) and it would therefore appear that such Subsequent Joinder is effective as of 7:00 A.M. on September 1, 1961. We therefore enclose revised Exhibit "B" to the Unit Agreement and revised Exhibit "C" to the Unit Operating Agreement, reflecting the participation as of September 1, 1961, at 7:00 A.M.

You will notice that the Unit Agreement does not provide for any approvals or consents of the Director since, of course, the original Unit area did not embrace any Federal lands. Upon approval of the enclosures by the Director, this letter will serve as Great Western Drilling Company's agreement, as a major working interest owner, to request at the next working interest owner's meeting, an agreement by the working interest owners that the Unit Operator shall obtain like approvals and consents of the Director as is provided in the Unit Agreement from the Commissioner. In addition, Great Western, as Unit Operator, will keep the Director's appropriate personnel fully advised of all further developments within the Unit to the same force and effect as if the Director had originally approved the Unit Agreement.

Respectfully,

Gentlemen:

The Pebble Queen Unit, located in Chaves County, New Mexico, was effective April 1, 1960. The Unit, as now constituted, contains 24 developed 40 acre proration units. The unitization formula was:

$$10\% \left( \frac{\text{tract wells}}{\text{unit wells}} \right) + 25\% \left( \frac{\text{tract millidarcy feet}}{\text{unit millidarcy feet}} \right) + 65\% \left( \frac{\text{tract remaining recoverable oil}}{\text{unit remaining recoverable oil}} \right)$$

It has now been proposed and approved by approximately 97.59% of the working interest owners that the Unit be enlarged to include two additional developed 40 acre tracts which have been recently completed. 97.59% of the present working interest owners and all of the working interest owners in the new tracts have agreed to expand the Unit by the addition of these two tracts on the following basis:

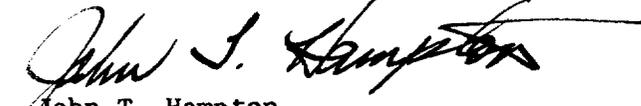

$$90\% \left[ 10\% \left( \frac{\text{tract wells}}{\text{unit wells}} \right) + 25\% \left( \frac{\text{tract millidarcy feet}}{\text{unit millidarcy feet}} \right) + 65\% \left( \frac{\text{tract remaining recoverable oil}}{\text{unit remaining recoverable oil}} \right) \right]$$

or, in effect, it has been agreed that 90% of the original participation formula would serve equity for all concerned. It was felt that the 10% participation penalty would compensate the present working interest and royalty owners for the loss in current production they will suffer when the Unit is expanded.

The attachment to this letter outlines the various parameters used to arrive at the formula.

Re: Case No. 1914  
Order No. R-1631  
Pebble Queen Unit  
Our No. 127-27

Gentlemen:

We have previously furnished your office one executed counterpart of the above Unit Agreement and Unit Operating Agreement, and we now enclose herewith the following Ratifications and Joinders:

Maxwell Oil Company	(Royalty Owner)
Gulf Oil Corporation	(Royalty Owner)
Gulf Oil Corporation	(Record Owner)
Great Western Drilling Company	(Royalty Owner)
Delfern Oil Company	(Record Owner)
Delfern Oil Company	(Working Interest Owner)
Graridge Corporation	(Working Interest Owner)

Secondly we enclose revised Exhibit B reflecting that Tracts 1, 3-7, 9-11, have been effectively committed and qualified under the provisions of the Unit Agreement. Tracts 2, 13 and 14 are not committed in that the Working Interest Owners have not joined; Tracts 8 and 12 are not qualified (Sec. 13) in that a sufficient amount of the Royalty Interest Owners have not joined.

By our calculations, and pursuant to Sec. 23, the execution of the Unit Agreement by Great Western Drilling Company as a Record Title Holder and Working Interest Owner coupled with the enclosed Ratifications amounts to approximately 91% Working Interest commitment and with the State approval, approximately 70% Royalty Interest commitment.

Lastly, we are enclosing a revised Exhibit C to the Operating Agreement, and the copy which you now have has been executed by Great Western Drilling Company; the enclosed Ratifications by Gulf and Delfern include their Ratifications as to the Unit Operating Agreement.

If anything further is required, please advise.

Respectfully yours,

HERVEY, DOW & HINKLE
