Re: Case #2040 (Continuance)
Grizzell #1
Lea County, New Mexico
Dual Completion

Gentlemen:

This letter is to request that you withdraw our application for dual completion of the Neville G. Penrose, Inc. Grizzell #1 as it was originally submitted. This application requested permission to produce gas from the Tubbs Pool and oil from the Drinkard Pool through the casing annulus and 2 3/8" tubing respectively. Hearing on this application was scheduled for August 24, 1960 at the regular examiners hearing and was assigned Case #2040.

It has been decided that the method of dual completion in all probability would be made using two strings of tubing and, therefore, would not necessitate an examiners hearing. We would appreciate your withdrawing our original application and canceling Case #2040. A new application will be submitted in the very near future.

Thank you for your courtesies in this matter.

Yours truly,

NEVILLE G. PENROSE, INC.

Glenn G. Neill
