Mr. F. C. Morgan
Phillips Petroleum Company
P. O. Box 2105
Hobbs, New Mexico

Dear Frosty:

We are enclosing herewith Order No. R-1877-A, a nunc pro tunc order of the Commission which corrects the original Order No. R-1877 to include the high pressure flow lines which you had proposed as the third alternative in the fail-safe features of the automatic custody transfer system authorized by said order.

The correction is, of course, effective the date of the original order, February 17, 1961.

Very truly yours,

DANIEL S. NUTTER
Chief Engineer

CASE No. 2177
Order No. R-1877-A

IN THE MATTER OF THE APPLICATION OF
PHILLIPS PETROLEUM COMPANY FOR APPROVAL
OF AN AUTOMATIC CUSTODY TRANSFER SYSTEM
IN THE CORBIN-ABO POOL, LEA COUNTY,
NEW MEXICO.

NUNC PRO TUNC ORDER

BY THE COMMISSION:

It appearing to the Commission that due to clerical error and inadvertence, Order No. R-1877, dated February 17, 1961, does not correctly state the intended order of the Commission in one particular.

IT IS THEREFORE ORDERED:

(1) That that paragraph of Order No. R-1877 entitled "PROVIDED FURTHER" be changed to read as follows:

PROVIDED FURTHER, That in order to prevent the overflow and waste of oil in the event the automatic custody transfer system fails to transfer oil to the pipeline, the applicant shall add additional storage facilities from time to time, as it becomes necessary, to store the production which will accrue during the hours that said lease is unattended, or in the alternative, (a) shall so equip the existing facilities as to automatically shut-in the lease production at the wellhead in the event the storage facilities become full, or (b) shall install high pressure flow lines and shall so equip the existing facilities as to automatically shut-in the lease production at the header in the event the storage facilities become full.

(2) That the correction set forth above be entered nunc pro tunc as of February 17, 1961.

DONE at Santa Fe, New Mexico, on this 15th day of March, 1961.
