Mr. Richard S. Morris,
Attorney at Law,
Oil Conservation Commission,
P. O. Box 871,
Santa Fe, New Mexico.

Dear Mr. Morris:

Re: Nash, Windfohr and Brown

Mr. Windfohr has now returned and advises me that the date of October 4, 1961 for hearing in Santa Fe on the application to establish a 4000 to 1 limiting gas - oil ratio in the Jackson - Abo Pool, will be entirely satisfactory with him.

Accordingly, I presume the matter will be set for hearing on that date and, if I am in error, please advise. Also, please send me a copy of your official notice of hearing.

Thank you very much for your cooperation in setting this at a time when Mr. Windfohr can be present.

Yours very truly,

Neil B. Watson.

Case 2398

September 1, 1961

Mr. Neil B. Watson
Attorney at Law
Carper Building
Artesia, New Mexico

Dear Mr. Watson:

Your application in behalf of Nash, Windfohr and Brown for the establishment of a 4000 to 1 limiting gas-oil ratio in the Jackson-Abo Pool, Eddy County, New Mexico, is tentatively being set for hearing on October 4th.

The Commission has scheduled an examiner hearing for September 20th, but in accordance with your request that the matter be set down for hearing subsequent to September 22nd, the hearing of the subject application has been deferred to the October date.

If the date of October 4th is unsatisfactory to you, please notify me as soon as possible.

Very truly yours,

RICHARD S. MORRIS
Attorney

Oil Conservation Commission
of New Mexico,
P. O. Box 871,
Santa Fe, New Mexico.

Attention: Mr. A. L. Porter, Jr. or Mr. Daniel S. Nutter.

Gentlemen:

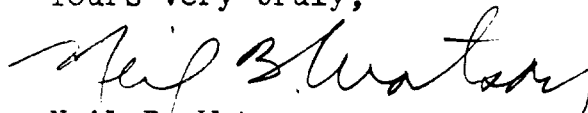

Confirming my telephone call of a few days ago, I have prepared and now enclose an Application and Petition for a re-determination of the specific gas - oil ratio limit for the Jackson-Abo Pool in Eddy County, New Mexico.

As you know, we are attorneys for Nash, Windfohr & Brown, the operator that owns all of the acreage in this field as well as adjoining acreage.

We would like to have the matter set down for hearing for some date subsequent to September 22nd, because Mr. Windfohr is going to be unable to attend the hearing until after that date, and he would like to attend the hearing in person and present the facts for your consideration with reference to this Application.

We will certainly appreciate your consideration in setting the matter down for hearing at a date and time which will permit Mr. Windfohr to be there.

Yours very truly,

Neil B. Watson

GAS-OIL RATIO REPORT

OPERATOR Nash Windfaher & Brown POOL Jackson Abo
ADDRESS 1st Nat'l Bank Bldg MONTH OF Oct., 1961
Fort Worth Texas
SCHEDULED TEST _____ COMPLETION TEST _____ SPECIAL TEST ☒ (Check One)
(See Instructions on Reverse Side)

Lease	Well No.	Date of Test	Producing Method	Choke Size	Test Hours	Daily Allowable Bbls.	Production During Test			GOR Cu. Ft. Per Bbl.
							Water Bbls.	Oil Bbls.	Gas MCF	
Jackson B	23	9-25 9-26	F	14/64	24	61	-	60.69	137	2261

No well will be assigned an allowable greater than the amount of oil produced on the official test.

During gas-oil ratio test, each well shall be produced at a rate not exceeding the top unit allowable for the pool in which well is located by more than 25 percent. Operator is encouraged to take advantage of this 25 percent tolerance in order that well can be assigned increased allowables when authorized by the Commission.

Gas volumes must be reported in MCF measured at a pressure base of 15.025 psia and a temperature of 60 degrees F. Specific gravity base will be 0.60.

Mail original and one copy of this report to the district office of the New Mexico Oil Conservation Commission. In accordance with Rule 301 and Appropriate Pool Rules.

(I certify that the information given is true and complete to the best of my knowledge.)
