Re: Applications of Harvey E. Yates and
S. P. Yates et al for Drilling Loca-
tion within the Potash-Oil Area.

Dear Mr. Porter:

Under date of May 10, 1962 I transmitted triplicate copies of applications of Harvey E. Yates and S. P. Yates et al for approval of drilling locations within the Potash-Oil Area:

1. The NE/4 SE/4 Section 9, Township 19 South, Range 30 East, N.M.P.M.
2. The SW/4 SE/4 Section 21, Township 19 South, Range 30 East, N.M.P.M.

The proposed location of Mr. Harvey E. Yates was included in Federal Oil and Gas Lease NM 02337. We have this date received from Mr. John A. Anderson, Regional Oil and Gas Supervisor, a decision denying the approval of Mr. Harvey E. Yates' Notice of Intention to Drill. A photocopy of this denial is enclosed for your files.

The location of S. P. Yates et al is included in Federal Oil and Gas Lease NM 02041. We have this date received from Mr. John A. Anderson, Regional Oil and Gas Supervisor, a decision denying approval of Mr. S. P. Yates' Notice of Intention to Drill this well. A photocopy of this denial is enclosed for your files.

In view of these decisions of the Geological Survey, it now appears that any decision by the New Mexico Oil Conservation Commission approving either of these locations would be of no force. Accordingly, and on behalf of Mr. Harvey E. Yates and Mr. S. P. Yates, we hereby request that the captioned applications be withdrawn and

the pending cases be dismissed. Unless I hear from you to the contrary, I will assume that the June 14, 1962 hearing before the New Mexico Oil Conservation Commission on these two cases has been vacated.

Very truly yours,

Dear Mr. Yates:

Under date of November 13, 1961, you filed a Notice of Intention to Drill well Federal No. 1 in the NE¼SE¼ sec. 9, T. 19 S., R. 30 E., N.M.P.M., Eddy County, New Mexico, on land included in lease New Mexico 02337, to a depth of 2,350 feet to test the Yates formation.

The proposed location is in the potash area prescribed by the Secretary of the Interior in his order of October 18, 1951, and is also in the area covered by New Mexico Oil Conservation Commission Order No. R-111-A.

In our opinion the drilling of the well would result in undue waste of potash deposits and constitute a hazard to, or unduly interfere with, mining operations being conducted for the extraction of potash deposits.

Pursuant to authority delegated to the Regional Oil and Gas Supervisor on May 10, 1962, 27 F.R. 4814, I hereby deny approval of the Notice of Intention to Drill described in the foregoing.

Very truly yours,

Re: R-111-A - SW/4SE/4 Sec. 21, T.19.S., R.30 E.

Dear Mr. Porter:

Under date of November 22, 1961, we objected to the drilling of an oil and gas test well on the SW/4SE/4 of Section 21, T.19, S.R.30 E.

Mr. A. J. Lossee of Artesia has requested that we waive the arbitration before the Secretary Director of the New Mexico Oil Conservation Commission as provided in Order R-111-A and consent to hearing of the application of his client, Mr. Harvey Yates, at the regular June hearing of the Commission. This letter will evidence our consent to waiver of arbitration, and to hearing the case at the regular hearing on June 14, 1962.

Very truly yours
