* Should waivers from all offset operators not accompany an application for administrative approval, the New Mexico Oil Conservation Commission will hold the application for a period of twenty (20) days from date of receipt by the Commission's Santa Fe office. If, after said twenty-day period, no protest nor request for hearing is received by the Santa Fe office, the application will then be processed.

NOTE: If the proposed multiple completion will result in an unorthodox well location and/or a non-standard proration unit in either or both of the producing zones, then separate application for approval of the same should be filed simultaneously with this application.

Gentlemen: Re: Application For Triple Completion -
Hawk B-3 No. 21

We forward herewith in triplicate an application for triple completion of our Hawk B-3 No. 21 in the Blinebry, Tubb and Drinkard Pools. In as much as this proposal will require a hearing, offset operators are not being furnished copies of this application.

Since this well has not yet been drilled, we are unable to furnish electric logs at this time. They will be forwarded as soon as they are available.

We would appreciate your setting this for hearing at the earliest possible date.

Yours very truly,

A. B. Slaybaugh
