Re: Application for Triple Completion (Conventional), A. B. Coates "C" Well No. 16, 760 FSL and 2030 FEL, Unit O, Sec. 24, T25S, R37E, Lea County, New Mexico.

Gentlemen:

Tidewater Oil Company respectfully requests that the Oil Conservation Commission schedule a hearing at the earliest possible date to consider this application. Coates "C" No. 16 is presently dual completed in the Justis Tubb-Drinkard and Justis Mckee Pools under provisions of OCC Order No. DC-691. Tidewater proposes to triple complete this well in the Justis Blinebry Pool. Oil production from these pools will be through parallel strings of 2-3/8 inch tubing.

A plat is attached which shows the location of A. B. Coates "C" No. 16 and the locations of all offset wells. A diagrammatic sketch of the proposed triple completion and the New Mexico Oil Conservation Commission "Application for Multiple Completion" form are also attached. A correlated copy of the well log will be submitted at the hearing.

Very truly yours.
