Attention: Mr. A. L. Porter, Jr.

Gentlemen:

Amoco Production Company respectfully requests a Hearing for the purpose of obtaining an exception to the casing program requirements of Rule R-111 for a well to be drilled in the potash-oil area at a location 660 FWL and 1980 FSL Section 26, T29S, R33E, Lea County, New Mexico. Amoco will request authority to utilize a two string casing program for a shallow zone well by omitting the salt protection string and circulating cement on the oil string.

Attached is a map showing our proposed location and names of offset Operators. We understand that Potash Company of America is the only holder of potash rights within 1 mile of the location.

It is respectfully requested that this matter be included on Examiner Hearing Docket for February 16, 1972.

Yours very truly,

D. L. Ray
