**Re: Reinstatement of Division Order No. R-6355 and a
Supplement to Administrative Order NSP-1643(SD)(L).**

Dear Mr. Hoover:

Reference is made to your letter of petition dated August 18, 1994, which included supporting information and notice to off-set operators, requesting reinstatement of Division Order No. R-6355 and to place Division Administrative Order NSP-1643(SD)(L) in abeyance at this time.

By Division Order No. R-6355, issued in Case 6888 and dated May 22, 1980, a 120-acre non-standard gas spacing and proration unit was established in the Eumont Gas Pool comprising the NE/4 SE/4 and S/2 SE/4 of Section 12, Township 19 South, Range 36 East, NMPM, Lea County, New Mexico, and had dedicated thereon the State "KN-12" Well No. 7 (API No. 30-025-26619), located at an unorthodox gas well location 330 feet from the South line and 1650 feet from the East line (Unit O) of said Section 12.

By Division Administrative Order NSP-1643(SD)(L), dated February 18, 1992, the previous Order R-6355 was placed in abeyance and a 160-acre non-standard gas spacing and proration unit was established in the Eumont Gas Pool comprising the SE/4 of said Section 12 in which had simultaneously dedicated to it the State "KN-12" Well No. 7 and the State "KN-12" Well No. 3 (API No. 30-025-26006), located at a standard gas well location 1711 feet from the South line and 1677 feet from the East line (Unit J) of said Section 12.

It is our understanding at this time that the State "KN-12" Well No. 3 has been reclassified from a "gas well" to an "oil well", which has resulted in the assignment of a standard 40-acre oil spacing and proration unit comprising the NW/4 SE/4 of said Section 12 to the subject well.
