Gentlemen:

Attached is a copy of Chevron's administrative application for NMOCD approval for an amendment to Order No. R-1084-A concerning a Non-Standard Gas Proration Unit in the Eumont (Pro-Gas) Pool.

Due to recently completing the H.T. Mattern (NCT-E) Well No. 15 as an oil well within an existing 480-acre Eumont Gas Proration Unit, it is necessary to reduce this unit to a 440-acre Eumont Gas Proration Unit. This unit will comprise the SW/4 Section 1 and all of the N/2 of Section 12 except the SW/4 NW/4 of the same. All 440-acres are to be dedicated to the existing H. T. Mattern (NCT-E) Well Nos. 10 and 11. The H. T. Mattern (NCT-E) Well No. 15 is located 1650' FNL and 990' FWL of Unit E, Section 12, T-22-S, R-36-E.

To prevent waste, Chevron is requesting the NMOCD to grant approval of this proposed amendment to Order No. R-1084-A and form the 440-acre non-standard Eumont Gas Proration Unit. As an offset operator, if you do not have any objections to the attached application, please sign the enclosed waivers and mail the original and two copies to the NMOCD in Santa Fe and one copy to the NMOCD in Hobbs. We would also request that you send a copy to Chevron U.S.A. Inc. in Midland. We have enclosed Self addressed, stamped envelopes for your convenience.

If you have any questions, please contact Mr. A. W. Bohling at (915) 687-7246. Your prompt consideration in the above matter is appreciated.

Yours very truly,

Case 10292

Attention: A. W. Bohling

RE: Application to amend Division Order No. R-1084-A. H.T. Mattern (NCT-E) Well Nos. 10 and 11; Eumont Gas Pool, Sections 1 and 12, Township 22 South, Range 36 East, Lea County, New Mexico.

Dear Mr. Bohling:

I am unable to administratively process the subject application, dated March 15, 1991, because the proration unit involved crosses a section line. By Rule 2(a)4(2) of the Special Rules and Regulations for the Eumont Gas Pool/General Rules for the Prorated Gas Pools of New Mexico, as promulgated by Division Order No. R-8170, as amended, such administrative review is limited to acreage within a section. Any time a unit in the Eumont Pool extends beyond a section line, a hearing is required.

In this particular instance where the facts are quite clear, I see no reason why testimony should be required (unless, of course, objections are encountered). I have therefore advertised this matter for the May 2, 1991 docket in the following style:

"APPLICATION OF CHEVRON USA, INC. TO AMEND DIVISION ORDER NO. R-1084-A, LEA COUNTY, NEW MEXICO.

Applicant, in the above-styled cause, seeks to amend Division Order No. R-1804-A, dated November 10, 1969, which authorized a 480-acre non-standard gas spacing and proration unit in the Eumont Gas Pool comprising the SW/4 of Section 1 and the N/2 of Section 12, both in Township 22 South, Range 36 East, to be simultaneously dedicated to its H.T. Mattern (NCT-E) Well Nos. 10 and 11 located in Unit N of Section 1 and Unit B of Section 12, respectively. At this time the applicant requests to delete the SW/4 NW/4 of said Section 12 from the

proration unit reducing the acreage to 440 acres for both Eumont Gas wells. Said unit area is located approximately 4 miles west southwest of Eunice, New Mexico.

IN THE ABSENCE OF OBJECTION, THIS MATTER WILL BE TAKEN UNDER ADVISEMENT."

Chevron will still be required to make proper notice of this hearing pursuant to the provisions of General Rule 1206.3.

Should you have any questions concerning this matter, please contact me.

Sincerely,

Michael E. Stogner
