RE: Chalk "AKH" Federal #2
Township 18 South, Range 27 East
Section 27: N/2
Eddy County, New Mexico

Gentlemen:

Yates Petroleum Corporation hereby proposes to drill the captioned well to the Morrow formation at a location of 660' FNL and 1320' FEL of Section 27, Township 18 South, Range 27 East. Enclosed are two (2) copies of our Authority for Expenditure to drill this well.

Also enclosed is a copy of our December 11, 1991, Operating Agreement covering the lands under this spacing unit in which we own an interest, along with two (2) Ratifications of Operating Agreement. If you wish to participate in the drilling of this well, please sign and return one (1) copy of the AFE and one (1) copy of the Ratification to our office.

Thank you for your prompt attention to this matter. Please give us a call if you have any questions.

Very truly yours,

Gentlemen:

Enclosed are two (2) copies of our Authority for Expenditure to drill the captioned well to the Morrow formation at a location of 660' FNL and 1980' FEL of Section 27, Township 18 South, Range 27 East.

Due to the pending force pooling, I have also enclosed the Operating Agreement, Ratification and Joinder of Operating Agreement and the Authority For Expenditure for the Chalk "AKH" Fed. #2 that we furnished to you last week. Please note that we have revised the location of the Chalk #2 well to 660' FNL and 1330' FEL.

Please review the Authority For Expenditures and the Operating Agreement, and if you wish to join in the drilling of these wells, execute and return one (1) copy of the AFE's in addition to one (1) copy of the Ratification and Joinder.

Thank you. Please call if you have any questions.

RE: Yates #2 Chalk "AKH"
660' FNL and 1330' FEL
Section 27, T-18-S, R-27-E
Eddy County, New Mexico

Dear Sirs:

In the matter of the drilling application on the above referenced well before the O. C. D., I would like to go on record as recommending Yates Petroleum Corporation to be operator. As a working interest owner and originator of this prospect, I believe that it is in the best interest of all parties in the #1 Chalk "AKH" (tr. I, Section 22, T-18-S, R-27-E) of which Yates Petroleum is the operator, to maintain the same operator in order to equitably develop the reservoir.

Thank you for your consideration in this matter.

Sincerely,

David W. Cromwell

YATES PETROLEUM CORPORATION

Chalk "AKH" Federal #2
660' FNL and 1330' FEL
Section 27, T18S-R27E
Eddy County, New Mexico

In conjunction with Form 3160-3, Application for Permit to Drill subject well, Yates Petroleum Corporation submits the following ten items of pertinent information in accordance with USGS requirements.

1. The geological surface formation is Alluvium.
2. The estimated tops of geologic markers are as follows:

San Andres	1,150'
Bone Spring	4,460'
3rd Bone Spring	6,980'
Wolfcamp	7,100'
Cisco	7,572'
Strawn	8,800'
Atoka	9,350'
Morrow Clastics	9,700'
Lower Morrow	9,810'
Barnett Shale	10,000'
TD	10,025'
3. The estimated depths at which anticipated water, oil or gas formations are expected to be encountered:

Water:	250'
Oil or Gas:	Wolfcamp, Penn, Morrow
4. Proposed Casing Program: See Form 3160-3.
5. Pressure Control Equipment: See Form 3160-3 and Exhibit B.
6. Mud Program: See Form 3160-3.

7. Auxiliary Equipment: Kelly Cock; pit level indicators and flow sensor equipment; sub with full-opening valve on floor, drill pipe connection.
8. Testing, Logging and Coring Program:
Samples: 10' from surface casing to TD
DST's: None
Coring: None
Logging: CNL/LDT, TD to Casing with CNL to surface; DLL/MSFL TD to casing, Sonic log TD to casing
9. No abnormal pressures or temperatures are anticipated. No H₂S is anticipated during the drilling of this well.
10. Anticipated starting date: As soon as possible after approval.

MULTI-POINT SURFACE USE AND OPERATIONS PLAN
Yates Petroleum Corporation
Chalk "AKH" Federal #2
660' FNL and 1330' FEL
Section 27-T18S-R27E
Eddy County, New Mexico

This plan is submitted with Form 3160-3, Application for Permit to Drill, covering the above described well. The purpose of this plan is to describe the location of the proposed well, the proposed construction activities and operations plan, the magnitude of surface disturbance involved and the procedures to be followed in rehabilitating the surface after completion of the operations, so that a complete appraisal can be made of the environmental effect associated with the operations.

1. EXISTING ROADS:

Exhibit A is a portion of BLM map showing the well and roads in the vicinity of the proposed location. The proposed wellsite is located approximately 12 miles east of Artesia, New Mexico and the access route to the location is indicated in red and green on Exhibit A.

DIRECTIONS:

1. Go east of Artesia on Highway 82 to Illinois Camp Road.
2. Turn south for approximately 4.5 miles to Eddy County Road #234.
3. Turn west for 1/2 mile and cross cattleguard.
4. Follow caliche road for 2 miles to cattleguard and take left after cattleguard for 1/4 mile.
5. New road starts here.

2. PLANNED ACCESS ROAD

- A. The proposed new access will be approximately 500' in length from point of origin to the Northeast edge of the drilling pad. The road will lie in a north to south direction.
- B. The new road will be 14 feet in width (driving surface) and will be adequately drained to control runoff and soil erosion.
- C. The new road will be bladed with drainage on one side. No traffic turnouts will be built.
- D. The route of the road is visible.

3. LOCATION OF EXISTING WELL

- A. There is drilling activity within a one-mile radius of the wellsite.
- B. Exhibit D shows existing wells within a one-mile radius of the proposed wellsite.

4. LOCATION OF EXISTING AND/OR PROPOSED FACILITIES

- A. There are production facilities on this lease at the present time.
- B. In the event that the well is productive, the necessary production facilities will be installed on the drilling pad. If the well is productive oil, a gas or diesel self-contained unit will be used to provide the necessary power. No power will be required if the well is productive of gas.

5. LOCATION AND TYPE OF WATER SUPPLY:

- A. It is planned to drill the proposed well with a fresh water system. The water will be obtained from commercial sources and will be hauled to the location by truck over the existing and proposed roads shown in Exhibit A.

6. SOURCE OF CONSTRUCTION MATERIALS:

Private pit located NE/4NE/4 Sec. 26, T18S-R27E

7. METHODS OF HANDLING WASTE DISPOSAL:

- A. Drill cuttings will be disposed of in the reserve pits.
- B. Drilling fluids will be allowed to evaporate in the reserve pits until the pits are dry.
- C. Water produced during operations will be collected in tanks until hauled to an approved disposal system, or separate disposal application will be submitted.
- D. Oil produced during operations will be stored in tanks until sold.
- E. Current laws and regulations pertaining to the disposal of human waste will be complied with.
- F. All trash, junk and other waste materials will be contained in trash bins to prevent scattering and will be removed and deposited in an approved sanitary land fill. Burial on site is not approved.

8. ANCILLARY FACILITIES:

- A. None required.

9. WELLSITE LAYOUT:

- A. Exhibit C shows the relative location and dimensions of the well pad, the reserve pits, the location of the drilling equipment, rig orientation and access road approach. A cross section of drill pad with approximate cuts, fills and pad orientation is shown on Exhibit E.
- B. The reserve pits will be plastic lined.
- C. A 400' X 400' area has been staked and flagged.

10. PLANS FOR RESTORATION OF THE SURFACE:

- A. After finishing re-entry and/or completion operations, all equipment and other material not needed for further operations will be removed. The location will be cleaned of all trash and junk to leave the wellsite in as aesthetically pleasing a condition as possible.
- B. Unguarded pits, if any, containing fluids will be fenced until they have dried and been leveled.
- C. If the proposed well is non-productive, all rehabilitation and/or vegetation requirements of Bureau of Land Management will be complied with and will be accomplished as expeditiously as possible. All pits will be filled level within 90 days after abandonment.

11. SURFACE OWNERSHIP: Bureau of Land Management
P. O. Box 1778
Carlsbad, New Mexico 88220

12. OTHER INFORMATION:

- A. Topography: Refer to the existing archaeological report for a description of the topography, flora, fauna, soil characteristics, dwellings, historical and cultural sites.
- B. The primary surface use is for grazing.

13. OPERATOR'S REPRESENTATIVE:

A. Through A.P.D. Approval:

Ken Beardemphl, Landman
Yates Petroleum Corporation
105 South Fourth Street
Artesia, New Mexico 88210
Phone (505)748-1471

B. Through Drilling Operations,
Completions and Production:

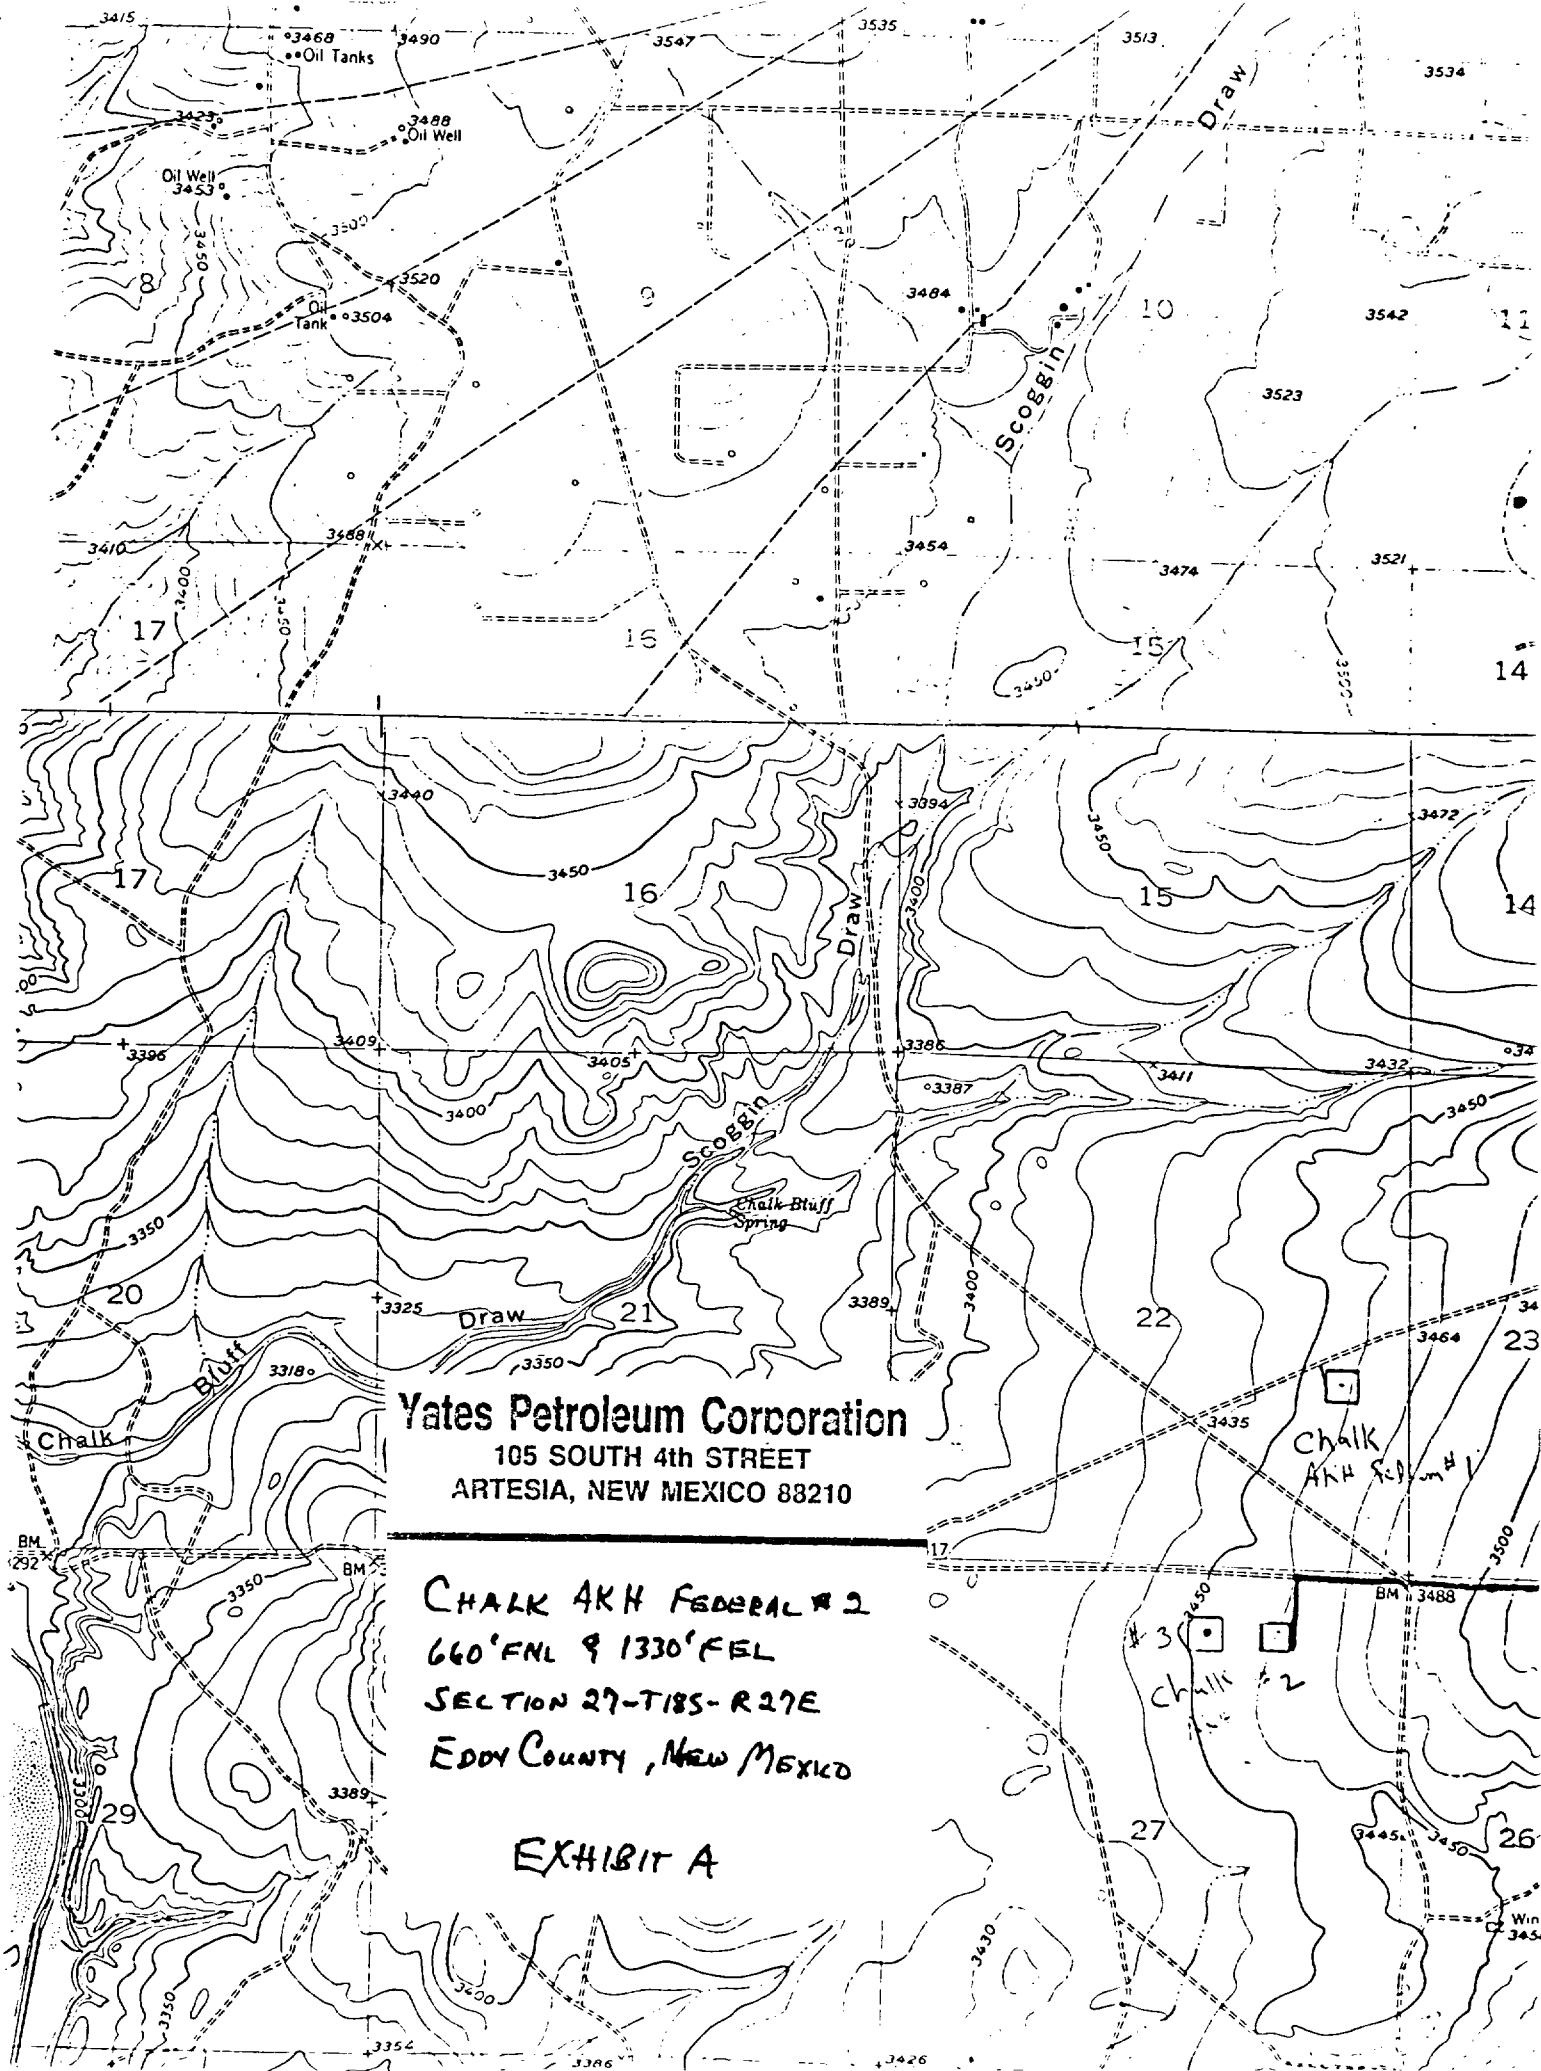

Mike Slater, Operations Manager
Yates Petroleum Corporation
105 South Fourth Street
Artesia, New Mexico 88210
Phone (505)748-1471

13. CERTIFICATION:

I hereby certify that I, or persons under my direct supervision, have inspected the proposed drillsite and access route, that I am familiar with the conditions which presently exist; that the statements made in this plan are to the best of my knowledge, true and correct; and, that the work associated with the operations proposed herein will be performed by Yates Petroleum Corporation and its contractors and subcontractors in conformity with this plan and the terms and conditions under which it is approved. This statement is subject to the provisions of 18 U.S.C. 1001 for the filing of a false statement.

Re: Applications of Yates Petroleum Corporation
for Compulsory Pooling, Eddy County, New Mexico

Dear Mr. Oppermann:

This office represents Yates Petroleum Corporation. On March 24, 1992 Yates Petroleum Corporation filed its Application for compulsory pooling for its Chalk "AKH" Federal No. 2 Well, and on March 27, 1992 it filed its Application for compulsory pooling for its Chalk "AKH" Federal No. 3 Well, both in Section 27, Township 18 South, Range 27 East, N.M.P.M., Eddy County, New Mexico. Copies of both Applications are enclosed for reference.

The New Mexico Oil Conservation Division has set April 30, 1992 as the date for said hearing on both Applications. Any party wishing to appear must file a prehearing statement by the Friday prior to the date of hearing, and any party wishing to receive other parties' prehearing statements or pleadings must file an entry of appearance.

I am also enclosing Waivers for your execution and return to me should you have no objection to said Applications. If you intend to object to said Applications, please let me know. If you have any questions, please do not hesitate to contact me.

Very truly yours,

LOSEE, CARSON, HAAS & CARROLL, P.A.

Ernest L. Carroll
