

RELEASE 8/14/92
APPLICATION FOR AUTHORIZATION TO INJECT

Case 16559

- I. Purpose: Secondary Recovery Pressure Maintenance Disposal Storage
Application qualifies for administrative approval? yes no

II. Operator: Southwest Royalties, Inc.

Address: P.O. Box 953, Midland, TX 79702

Contact party: Ann E. Ritchie Phone: 915 6846381

III. Well data: Complete the data required on the reverse side of this form for each well proposed for injection. Additional sheets may be attached if necessary.

IV. Is this an expansion of an existing project? yes no
If yes, give the Division order number authorizing the project _____.

V. Attach a map that identifies all wells and leases within two miles of any proposed injection well with a one-half mile radius circle drawn around each proposed injection well. This circle identifies the well's area of review.

* VI. Attach a tabulation of data on all wells of public record within the area of review which penetrate the proposed injection zone. Such data shall include a description of each well's type, construction, date drilled, location, depth, record of completion, and a schematic of any plugged well illustrating all plugging detail.

VII. Attach data on the proposed operation, including:

1. Proposed average and maximum daily rate and volume of fluids to be injected;
2. Whether the system is open or closed;
3. Proposed average and maximum injection pressure;
4. Sources and an appropriate analysis of injection fluid and compatibility with the receiving formation if other than reinjected produced water; and
5. If injection is for disposal purposes into a zone not productive of oil or gas at or within one mile of the proposed well, attach a chemical analysis of the disposal zone formation water (may be measured or inferred from existing literature, studies, nearby wells, etc.).

* VIII. Attach appropriate geological data on the injection zone including appropriate lithologic detail, geological name, thickness, and depth. Give the geologic name, and depth to bottom of all underground sources of drinking water (aquifers containing waters with total dissolved solids concentrations of 10,000 mg/l or less) overlying the proposed injection zone as well as any such source known to be immediately underlying the injection interval.

IX. Describe the proposed stimulation program, if any.

* X. Attach appropriate logging and test data on the well. (If well logs have been filed with the Division they need not be resubmitted.)

* XI. Attach a chemical analysis of fresh water from two or more fresh water wells (if available and producing) within one mile of any injection or disposal well showing location of wells and dates samples were taken.

XII. Applicants for disposal wells must make an affirmative statement that they have examined available geologic and engineering data and find no evidence of open faults or any other hydrologic connection between the disposal zone and any underground source of drinking water.

XIII. Applicants must complete the "Proof of Notice" section on the reverse side of this form.

XIV. Certification

I hereby certify that the information submitted with this application is true and correct to the best of my knowledge and belief.

Name: Ann E. Ritchie Title Regulatory Agent

Signature: Ann E. Ritchie Date: 7-28-92

* If the information required under Sections VI, VIII, X, and XI above has been previously submitted, it need not be duplicated and resubmitted. Please show the date and circumstance of the earlier submittal.

III. WELL DATA

A. The following well data must be submitted for each injection well covered by this application. The data must be both in tabular and schematic form and shall include:

- (1) Lease name; Well No.; location by Section, Township, and Range; and footage location within the section.
- (2) Each casing string used with its size, setting depth, sacks of cement used, hole size, top of cement, and how such top was determined.
- (3) A description of the tubing to be used including its size, lining material, and setting depth.
- (4) The name, model, and setting depth of the packer used or a description of any other seal system or assembly used.

Division District offices have supplies of Well Data Sheets which may be used or which may be used as models for this purpose. Applicants for several identical wells may submit a "typical data sheet" rather than submitting the data for each well.

B. The following must be submitted for each injection well covered by this application. All items must be addressed for the initial well. Responses for additional wells need be shown only when different. Information shown on schematics need not be repeated.

- (1) The name of the injection formation and, if applicable, the field or pool name.
- (2) The injection interval and whether it is perforated or open-hole.
- (3) State if the well was drilled for injection or, if not, the original purpose of the well.
- (4) Give the depths of any other perforated intervals and detail on the sacks of cement or bridge plugs used to seal off such perforations.
- (5) Give the depth to and name of the next higher and next lower oil or gas zone in the area of the well, if any.

XIV. PROOF OF NOTICE

All applicants must furnish proof that a copy of the application has been furnished, by certified or registered mail, to the owner of the surface of the land on which the well is to be located and to each leasehold operator within one-half mile of the well location.

Where an application is subject to administrative approval, a proof of publication must be submitted. Such proof shall consist of a copy of the legal advertisement which was published in the county in which the well is located. The contents of such advertisement must include:

- (1) The name, address, phone number, and contact party for the applicant;
- (2) the intended purpose of the injection well; with the exact location of single wells or the section, township, and range location of multiple wells;
- (3) the formation name and depth with expected maximum injection rates and pressures; and
- (4) a notation that interested parties must file objections or requests for hearing with the Oil Conservation Division, P. O. Box 2080, Santa Fe, New Mexico 87501 within 15 days.

NO ACTION WILL BE TAKEN ON THE APPLICATION UNTIL PROPER PROOF OF NOTICE HAS BEEN SUBMITTED.

NOTICE: Surface owners or offset operators must file any objections or requests for hearing of administrative applications within 15 days from the date this application was mailed to them.

III Well Data

- A. (1). Julie COM, well #1, Section 17, T-19-S, R-25-E, Eddy County, New Mexico, being 1980 FNL and 990 FEL of Section 17.
- (2). Casing Detail:
13-3/8", 48#, H-40 @ 415' cemented w/300 sx and circulated to surface in a 16-1/4" hole.
8-5/8", 24# @ 1125' cemented w/550 sx and circulated to surface in a 12-1/4" hole.
5-1/2", 15.5 & 17#, J-55 @ 8052' and cemented w/280 sx, estimated top of cement @ 6040'; in a 7-7/8" hole. Propose squeeze @ 3990' w/200 sx. (see diagram attached)
- (3&4). Tubing to be used for disposal purposes will be 2-7/8" plastic coated tubing, utilizing a Model R Compression Packer, to be set at an approximate depth of 3950'.
- B. (1). The injection formation is into the Abo from an approximate depth 4000' to 5000', the applicable field name is the Undesignated Abo.
(2). The injection interval is perforations between 4000' to 5000'.
(3). The original purpose of this well was production. It was drilled in August 1976, well was a producer in the Cisco Canyon and was P&A 11-12-86.
(4). Diagram of well after plugging attached.
(5). Depth and name of next higher and lower oil or gas zone in the area of the well:

Yeso - 1500'

Cisco @ 7800'

Southwest Royalties, Inc.
Julie COM, Well #1
Sec. 17, T-19-S, R-25-E
Undesignated, Abo
Eddy County, New Mexico

July 28, 1992

VI. Wells within a 1/2 mile radius:

- (1) Roger C. Hanks, Barbara Federal, well #3, Sec 17, T-19-S, R-25-E, Eddy County, NM, 1980 FNL and 1980 FWL, TD 7950', completion card attached, current status: P & A.
- (2) Roger C. Hanks, Barbara Federal, well #7, Sec 17, T-19-S, R-25-E, Eddy County, NM, 1980 FSL and 1980 FEL, TD 8054', completion card attached, current status: P & A.

VII. Data on proposed operation:

- (1) Proposed average daily rate of injection: 1200 bbls
Maximum daily rate of injection: 2000 bbls
- (2) System is to be closed, utilizing 1500 bbl tank storage facilities.
- (3) Average injection pressure: 1000#
Maximum injection pressure: 1400#
- (4) Water injected will be reinjected water from compatible formation produced water.
- (5) Anticipate receiving on lease water from the Cisco Canyon formation water for injection.

VIII. Information litho from Oil Conservation Division.

IX. Stimulation: 5000 gals 15% NEFE acid.

X. Log (Oil Conservation Division has logs).

XI. Attached.

XII. Affirmative statement on geologic and engineering data examination attached.

XIII. Notice and "Proof of Notice" in Artesia and Carlsbad newspaper attached.

INSTRUCTIONS

This form is to be filled with the appropriate District Office of the Commission, not later than 20 days after the completion of any newly-drilled or deepened well. It shall be accompanied by one copy of all electrical and radio-activity logs run on the well and a summary of all special tests conducted, including drill stem tests. All depths reported shall be measured depths. In the case of directionally drilled wells, true vertical depths shall also be reported. For multiple completions, Items 30 through 34 shall be reported for each zone. The form is to be filed in quintuplicate except on state land, where six copies are required. See Rule 1105.

Gentlemen:

Please see attached a copy of our well data sheet submitted with our application to convert the above captioned well into a salt water disposal well. This is an amended application from our application of 7-14-92 to dispose/inject into the Cisco Canyon zone.

If you have no objection to our utilizing this well for salt water disposal as described in our well data sheet for this well, please sign below and return the original to us in the enclosed pre-addressed stamped envelope, keeping a copy of the waiver and attachments for your files. If you have any questions concerning this application please let us know as soon as possible @ 915 684-6381 or at the address listed below. Thank you.

Yours truly,

Ann E. Ritchie, Regulatory Agent
SOUTHWEST ROALTIES, INC.

AMENDED NOTICE OF APPLICATION FOR FLUID INJECTION WELL PERMIT

Southwest Royalties, Inc., c/o P.O. Box 953, Midland, Texas 79702 is seeking administrative approval from the New Mexico Oil Conservation Division to complete our Julie COM, Well #1 as an injection well. The well is located in Section 17, Twp.-19-S, rge.-25-E, Eddy County, New Mexico. The proposed injection zone is the Canyon formation with perforations between 4000' and 5000'. Southwest Royalties, Inc. intends to inject a maximum of 2000 bbls of produced formation water per day at a maximum injection pressure of 1400#.

Interested parties must file objections or request for hearing with the Oil Conservation Division, P.O. Box 2088, Santa Fe, New Mexico, 87501 within 15 days of this notice.

Published in the _____ paper on this the _____
day of _____ 1992.
