Re: Diamond A "27" State #1 Well
Application for Unorthodox
Location Drilling Permit
E/2 Section 27, T17S, R28E
Eddy County, New Mexico

Ladies and Gentlemen:

Mewbourne Oil Company, as operator, proposes to drill the captioned well at a point located 1,756 feet from the South line and 660 feet from the East line of the above described Section 27 to test all formations from the surface through the Morrow formation. The proposed test well will be drilled to approximately 10,600 feet beneath the surface with the E/2 of the captioned Section 27 being dedicated to the well.

Mewbourne Oil Company is seeking an exception to the well location requirements of Division Rule 104 C.(2)(b) and has applied with the Division for approval of an unorthodox gas well location as described above for all formations spaced on 320 acres. Such request is for topographical reasons because of the close proximity to a draw.

Mewbourne wishes to drill its well at the proposed location as we feel it is necessary if we are to recover oil and gas reserves underlying our lease. We are also convinced that the distance from the proposed well location to other producers in the area is sufficient to insure no harmful effect on other producers.

If you have no objection to the Division granting Mewbourne approval to drilling its well at the proposed unorthodox gas well location, please sign and date the attached Waivers of Objection and return them to me for further handling in the enclosed self-addressed envelope.
