Re: Application of Yates Petroleum Corporation for Approval of a Waterflood Project and Quantification for the Recovered Oil Tax Rate, Eddy County, New Mexico

Dear Mr. LeMay:

Enclosed is an original and one copy of completed Oil Conservation Division Form C-108 which is the application of Yates Petroleum Corporation in the above-referenced matter. Also enclosed is a draft of a legal advertisement for this case.

Yates Petroleum Corporation requests that this case be set for hearing before a Division Examiner on April 8, 1993.

We have provided a copy of this application to the Oil Conservation Division's District Office in Artesia, New Mexico.

Your attention to this matter is appreciated.

Very truly yours,

WILLIAM F. CARR

APPLICATION FOR AUTHORIZATION TO INJECT

Case 10711

- I. Purpose: Secondary Recovery Pressure Maintenance Disposal Storage
Application qualifies for administrative approval? yes no
- II. Operator: Yates Petroleum Corporation
Address: 105 South 4th Street Artesia, NM 88210
Contact party: Theresa Sloan Phone: (505) 748-1471
- III. Well data: Complete the data required on the reverse side of this form for each well proposed for injection. Additional sheets may be attached if necessary.
- IV. Is this an expansion of an existing project? yes no
If yes, give the Division order number authorizing the project _____.
- V. Attach a map that identifies all wells and leases within two miles of any proposed injection well with a one-half mile radius circle drawn around each proposed injection well. This circle identifies the well's area of review.
- * VI. Attach a tabulation of data on all wells of public record within the area of review which penetrate the proposed injection zone. Such data shall include a description of each well's type, construction, date drilled, location, depth, record of completion, and a schematic of any plugged well illustrating all plugging detail.
- VII. Attach data on the proposed operation, including:
1. Proposed average and maximum daily rate and volume of fluids to be injected;
 2. Whether the system is open or closed;
 3. Proposed average and maximum injection pressure;
 4. Sources and an appropriate analysis of injection fluid and compatibility with the receiving formation if other than reinjected produced water; and
 5. If injection is for disposal purposes into a zone not productive of oil or gas at or within one mile of the proposed well, attach a chemical analysis of the disposal zone formation water (may be measured or inferred from existing literature, studies, nearby wells, etc.).
- *VIII. Attach appropriate geological data on the injection zone including appropriate lithologic detail, geological name, thickness, and depth. Give the geologic name, and depth to bottom of all underground sources of drinking water (aquifers containing waters with total dissolved solids concentrations of 10,000 mg/l or less) overlying the proposed injection zone as well as any such source known to be immediately underlying the injection interval.
- IX. Describe the proposed stimulation program, if any.
- * X. Attach appropriate logging and test data on the well. (If well logs have been filed with the Division they need not be resubmitted.)
- * XI. Attach a chemical analysis of fresh water from two or more fresh water wells (if available and producing) within one mile of any injection or disposal well showing location of wells and dates samples were taken.
- XII. Applicants for disposal wells must make an affirmative statement that they have examined available geologic and engineering data and find no evidence of open faults or any other hydrologic connection between the disposal zone and any underground source of drinking water.
- XIII. Applicants must complete the "Proof of Notice" section on the reverse side of this form.
- XIV. Certification

I hereby certify that the information submitted with this application is true and correct to the best of my knowledge and belief.

Name: Theresa Sloan Title Petroleum Engineer

Signature: Theresa Sloan Date: 3/9/93

* If the information required under Sections VI, VIII, X, and XI above has been previously submitted, it need not be duplicated and resubmitted. Please show the date and circumstance of the earlier submittal.

III. WELL DATA

- A. The following well data must be submitted for each injection well covered by this application. The data must be both in tabular and schematic form and shall include:
- (1) Lease name; Well No.; location by Section, Township, and Range; and footage location within the section.
 - (2) Each casing string used with its size, setting depth, sacks of cement used, hole size, top of cement, and how such top was determined.
 - (3) A description of the tubing to be used including its size, lining material, and setting depth.
 - (4) The name, model, and setting depth of the packer used or a description of any other seal system or assembly used.

Division District offices have supplies of Well Data Sheets which may be used or which may be used as models for this purpose. Applicants for several identical wells may submit a "typical data sheet" rather than submitting the data for each well.

- B. The following must be submitted for each injection well covered by this application. All items must be addressed for the initial well. Responses for additional wells need be shown only when different. Information shown on schematics need not be repeated.
- (1) The name of the injection formation and, if applicable, the field or pool name.
 - (2) The injection interval and whether it is perforated or open-hole.
 - (3) State if the well was drilled for injection or, if not, the original purpose of the well.
 - (4) Give the depths of any other perforated intervals and detail on the sacks of cement or bridge plugs used to seal off such perforations.
 - (5) Give the depth to and name of the next higher and next lower oil or gas zone in the area of the well, if any.

XIV. PROOF OF NOTICE

All applicants must furnish proof that a copy of the application has been furnished, by certified or registered mail, to the owner of the surface of the land on which the well is to be located and to each leasehold operator within one-half mile of the well location.

Where an application is subject to administrative approval, a proof of publication must be submitted. Such proof shall consist of a copy of the legal advertisement which was published in the county in which the well is located. The contents of such advertisement must include:

- (1) The name, address, phone number, and contact party for the applicant;
- (2) the intended purpose of the injection well; with the exact location of single wells or the section, township, and range location of multiple wells;
- (3) the formation name and depth with expected maximum injection rates and pressures; and
- (4) a notation that interested parties must file objections or requests for hearing with the Oil Conservation Division, P. O. Box 2088, Santa Fe, New Mexico 87501 within 15 days.

NO ACTION WILL BE TAKEN ON THE APPLICATION UNTIL PROPER PROOF OF NOTICE HAS BEEN SUBMITTED.

NOTICE: Surface owners or offset operators must file any objections or requests for hearing of administrative applications within 15 days from the date this application was mailed to them.

C-108
Application for Authorization to Inject
Yates Petroleum Corporation
Eddy County, New Mexico

**Creek AL #6
D 25-18S-30E**

**Creek AL #7
M 24-18S-30E**

**Creek AL #9
E 25-18S-30E**

- I. The purpose of this application is to request authorization to inject into the Shugart Penrose and Middle Grayburg Formations in the three above mentioned wells for the purpose of secondary recovery on Yates' Creek AL lease.

Yates Petroleum plans to do the following. (See Exhibit 2)

1. Deepen Creek AL #3, #5, #7 to include Middle Grayburg zone
2. Convert Creek AL #6, #7, #9 to injectors
3. Convert Creek AL #3, #5, #8 to producers
4. Re-enter Creek AL #10 and complete as producer
5. Drill Creek AL #12, #13, #14 and complete as producers

Creek AL #12

D 25-18S-30E

1155' FNL & 330' FWL

Creek AL #13

E 25-18S-30E

2310' FNL & 330' FWL

Creek AL #14

F 25-18S-30E

2310' FNL & 1650'FWL

II. Operator: Yates Petroleum Corporation
105 South Fourth Street
Artesia, NM 88210
Theresa Sloan (505) 748-1471

III. Well Data: See Attachment A

IV. This is not an expansion of an existing project.

V. See attached maps, Attachment B

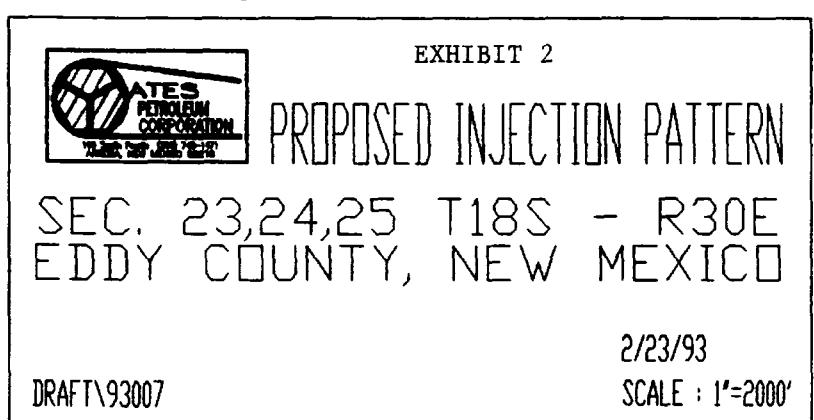

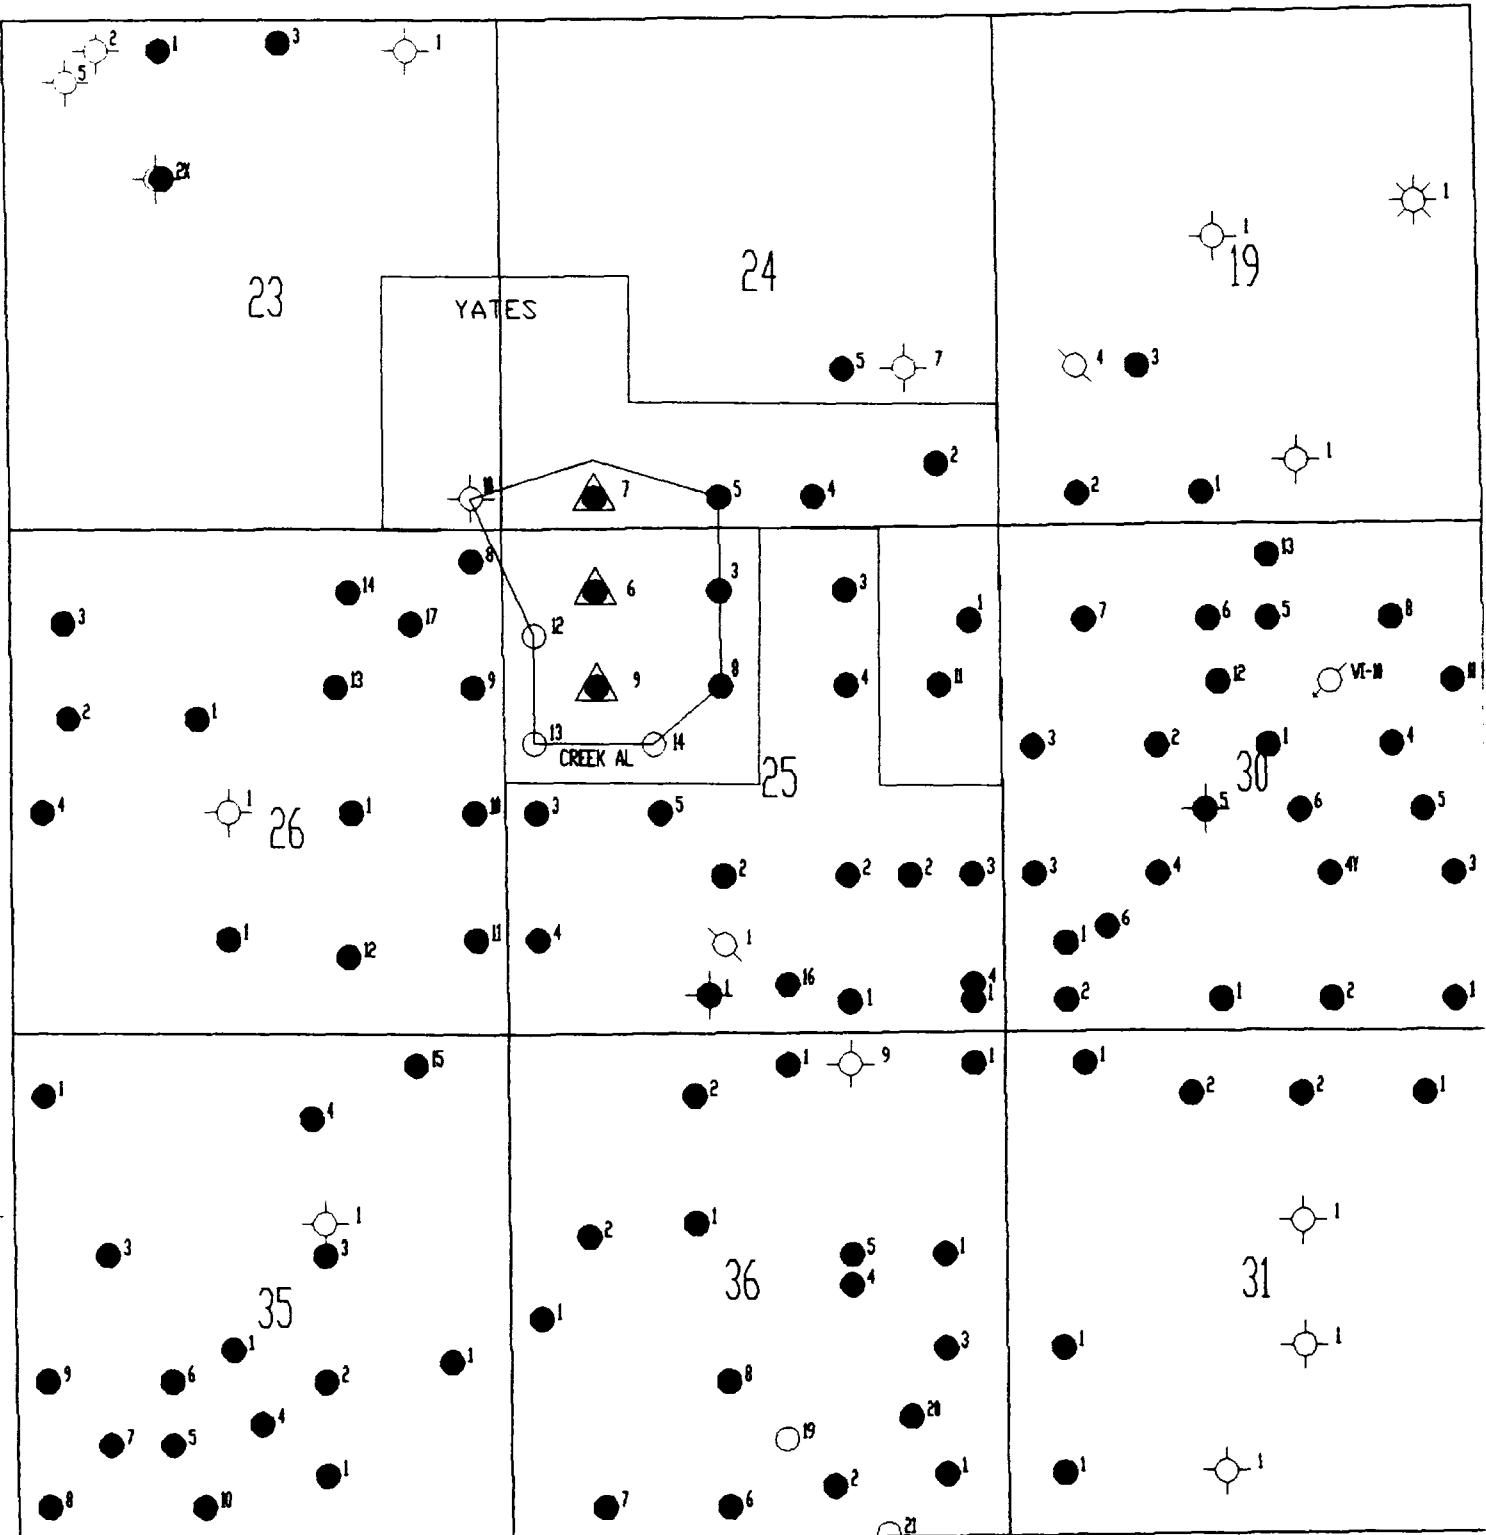

VI. See Attachment C

- VII. 1. Proposed average daily injection volumes approximately 600 BWPD per injection well.
Maximum daily injection volumes approximately 1000 BWPD per injection well.
2. This will be a closed system.
3. A step rate test will be run in the Penrose & Middle Grayburg formations.
Proposed average injection pressure - 1600 psi
Proposed maximum injection pressure - 2000 psi

C-108

Application for Authorization To Inject
Creek AL #6, #7, #9

4. Sources of injected water will be Ogallala aquifer waters and produced Shugart Penrose - Grayburg waters. The water analyses are attached. (Attachment D)
 5. Not applicable
- VIII. 1. The proposed injection intervals consist of the Penrose and Middle Grayburg sands. The Penrose sands can be found at an average depth of 3215 - 3290, with the Middle Grayburg sands at an average depth of 3490 - 3590.
2. Fresh water zones overlie the Penrose - Middle Grayburg formations at depths to approximately 275 ft. These water zones are located in the Triassic Redbeds.
- IX. The proposed disposal intervals will be acidized and/or proppant fractured if necessary.
- X. Logs were filed at your office when the wells were drilled and completed. The logs on the Creek AL #12, #13, #14 will be filed after these wells are drilled.
- XI. One water well was located within the one-mile radii of the injection wells, as per the State Engineer's office. (Attachment E - area map)
The water analysis on this well is attached. (Attachment F - Snyder Ranch water well)
- XII. Yates Petroleum Corporation has examined geologic and engineering data and has found that there is no evidence of faulting in the proposed intervals.
- XIII. Proof of Notice
- A. Certified letters sent to the surface owner and offset operators are attached. (Attachment G)
 - B. Copy of legal advertisement attached. (Attachment H)
- XIV. Certification is signed.

Legal Notice

Yates Petroleum Corporation, 105 South Fourth Street, Artesia, NM 88210, has filed form C-108 (Application for Authorization to Inject) with the New Mexico Oil Conservation Division seeking administrative approval for three injection wells. The proposed wells,

1 - Creek AL #6	D 25-18S-30E	660' FNL & 990' FWL
2 - Creek AL #7	M 24-18S-30E	330' FSL & 990' FWL
3 - Creek AL #9	E 25-18S-30E	1650' FNL & 990' FWL

Eddy County, New Mexico, will be used for injection in a waterflood. Fresh aquifer water from the Ogallala will be injected into the Shugart Penrose - Middle Grayburg formations at average depths between 3215 - 3290 and 3490 - 3590 respectively. The maximum injection pressure and injection rate is 2000 psi and 1000 BWPD per well.

All interested parties opposing the aforementioned must file objections or requests for a hearing with the Oil Conservation Division, P.O. Box 2088, Santa Fe, NM 87501, within 15 days. Additional information can be obtained by contacting Theresa Sloan at (505) 748-1471.

CASE 10711:

Application of Yates Petroleum Corporation for approval of a waterflood project, Eddy County, New Mexico. Applicant, in the above-styled cause, seeks approval of its Creek AL Lease Waterflood Project by injection of water into the Shugart, Penrose and Middle Grayburg formations through 108 injection wells located in the following described area:

TOWNSHIP 18 SOUTH, RANGE 30 EAST, N.M.P.M.

- Section 23: E/2 SE/4
Section 24: S/2 S/2, NW/4 SW/4
Section 25: NW/4, E/2 NE/4

The applicant requests that the Division establish procedures for the administrative approval of additional injection wells within the unit area without the necessity of further hearings and the adoption of any provisions necessary for such other matters as may be appropriate for said waterflood operations. Applicant further seeks to qualify this project for the recovered oil tax rate under the "Enhanced Oil Recovery Act" (Law 1992, Chapter 38, Sections 1 through 5). Said area of interest is located _____ miles _____ of _____, New Mexico.
