Notice of Hearing
Federal C #2
Indian Basin (Upper Penn) Gas Pool
Eddy County, New Mexico

This letter is to advise you that MW Petroleum Corporation/Apache Corporation has made application to the New Mexico Oil Conservation Division to drill the Federal C #2 at an unorthodox location. This application is set for examiner hearing on the June 3, 1993, docket.

MW Petroleum Corporation, as the operator of Section 35, Township 21 South, Range 23 East, Eddy County, New Mexico, proposes to drill the Federal C #2 at a location 800' from the South and West lines of Section 35 to test the Indian Basin (Upper Penn) Gas Pool. An exception to the well location requirements of Rule 2(B) of the Special Rules and Regulations for the Indian Basin (Upper Penn) Gas Pool is required for the proposed location. The pool rules require a standard location to be 1650' from the outer boundary of the section.

MW Petroleum is recommending that an acreage factor of 0.68 be assigned to the proposed well for gas allowable purposes.

Upon successful completion of the proposed Federal C #2, MW Petroleum will plug and abandon the Federal C #1 wellbore.

Approval of this application will allow MW Petroleum to produce its just and equitable share of hydrocarbons underlying this spacing unit. This will result in the prevention of waste and the protection of correlative rights.

You are not required to attend this hearing, but in accordance with New Mexico Rule 1207 as one who may be affected, we are sending you this notice. Please understand that failure to appear at the hearing and become a party of record will preclude you from challenging the matter at a later date. Should you wish to discuss this application, please call me at (713) 296-6306.

Sincerely yours,

Ceci Searls Leonard
Senior Staff Reservoir Engineer

Attn: Tom Adams

Request for Waiver of Objection
Federal C #2
Indian Basin (Upper Penn) Gas Pool
Eddy County, New Mexico

MW Petroleum Corporation, operator, is requesting your waiver of objection to MW Petroleum's application to drill a gas well at an unorthodox location in Section 35 of Township 21-S, Range 23-E, Eddy County, New Mexico.

This application has been set for hearing on June 3, 1993, at the offices of the New Mexico Oil Conservation Division in Santa Fe, New Mexico.

The proposed well will be a replacement gas producer for the Federal C #1, located in Unit F. This well is producing high volumes of water (in excess of 600 BWPD) and is not expected to produce in commercial quantities much longer. The proposed replacement well will be located in Unit M to the southwest of the original well at a location 800' FSL and 800' FWL of Section 35.

MW Petroleum is also requesting that the NMOCD approve an acreage factor of 0.62 for gas allowable purposes.

Numerous unorthodox location permit applications have been approved by the NMOCD in Indian Basin Field over the years. MW Petroleum believes that the drilling of this well is necessary to protect the correlative rights of it and its royalty owners. The acreage factor of 0.62 will protect the correlative rights of the offsetting interests.

If you have no objections to MW Petroleum's drilling and producing this unorthodox location, please sign and return one copy of this letter in the enclosed envelope. Should you have any questions regarding this matter, please call Ceci Leonard at (713) 296-6306.

Sincerely yours,

Ceci Searls Leonard
