Grayburg Injection Above Parting Pressure  
Lea County, New Mexico  
File: THJ-002-510.PR040

*Please  
check this  
Case. 10901*

*[Signature]*

Amoco Production Company hereby withdraws its request of South Hobbs Unit wells #8, 10, 25, 26, 113, 114 to be exempted from the .2 psi/ft of depth pressure guideline. We have determined that even under ideal conditions, we would most likely not have the facility capability to inject above parting pressure.

We understand that a hearing has been set on this matter for February 3, 1994. This hearing will not be needed. If you have any questions, please call 713-366-7286.

Sincerely,

*Teresa A Caldwell*
