Attn: Mr. Charles Gibson

**RE: Injection Pressure Increase Hanson 'C' Well No.4-K,  
Lea County, New Mexico**

Dear Mr. Gibson:

Reference is made to your request dated December 27, 1995 to increase the surface injection pressure on the above referenced well. This request is based on a step rate test conducted on December 14, 1995. The results of the test have been reviewed by my staff and we feel an increase in injection pressure on this well is justified at this time.

You are therefore authorized to increase the surface injection pressure on the following well:

Well and Location	Maximum Surface Injection Pressure
Hanson 'C' Well No.4-K	1950 PSIG
Located in Section 23, Township 20 South, Range 34 East, Lea County, New Mexico.	

The Division Director may rescind this injection pressure increase if it becomes apparent that the injected water is not being confined to the injection zone or is endangering any fresh water aquifers.

Sincerely,

William J. LeMay  
Director

WJL/BES
