CASE NO. 11021

APPLICATION

MEWBOURNE OIL COMPANY, through its undersigned attorneys, hereby makes application pursuant to the provisions of N.M.Stat.Ann. § 70-2-17, (1978), for an order pooling all of the mineral interests in all formations developed on 320-acre spacing from the surface to the base of the Morrow formation in the E/2 of Section 22, Township 20 South, Range 25 East, N.M.P.M., Eddy County, New Mexico, and in support thereof states:

1. Applicant is a working interest owner in the E/2 of Section 22 and has the right to drill thereon.
2. Applicant proposes to dedicate the above-referenced spacing or proration unit to its Bubbling Springs "22" No. 1 Well to be drilled at an orthodox location 1980 feet from the South line and 990 feet from the East line of Section 22, to a depth sufficient to test any and all formations from the surface to the base of the Morrow formation, West Bubbling Springs-Morrow Gas Pool.
3. Applicant has sought and been unable to obtain either voluntary agreement for pooling or farmout from certain interest owners in the E/2 of said Section 22.
4. Said pooling of interests will avoid the drilling of unnecessary wells, will prevent waste and will protect correlative rights.

5. In order to permit the Applicant to obtain its just and fair share of the oil and gas underlying the subject lands, all mineral interests should be pooled, and Applicant should be designated the operator of the well to be drilled.

WHEREFORE, Applicant requests that this application be set for hearing before an Examiner of the Oil Conservation Division on July 21, 1994 and, after notice and hearing as required by law, the Division enter its order pooling the lands, including provisions for Applicant to recover its costs of drilling, equipping and completing the well, its costs of supervision while drilling and after completion, including overhead charges, and imposing a risk factor for the risk assumed by the Applicant in drilling, completing and equipping the well.

Respectfully submitted,
