Dear Ms. Trujillo:

Based upon the reasons stated in your letter of March 30, 1995, and in accordance with the provisions of Division Orders Nos. R-10167, R-10169, and R-10170, AnSon Gas Corporation is hereby granted an additional extension of time until June 15, 1995, in which to begin the wells on the units pooled by said orders.

Sincerely,

WILLIAM J. LEMAY  
Director

**Re: Oil Conservation Division Case Nos. 11023, 11024 and 11025, Order Nos.  
R-10167, R-10169, R-10170  
Applications of AnSon Gas Corporation for Compulsory Pooling, Lea  
County New Mexico**

Dear Mr. LeMay:

On January 3, 1995, the New Mexico Oil Conservation Division granted an extension of time until April 15, 1995 to commence drilling wells pursuant to Order Nos. R-10167, R-10169, and R-10170. Currently, AnSon is attempting to resolve surface damage disputes with a surface owner, but has not been able to come to an agreement at this time. In addition, AnSon only recently received seismic data on the subject area, and would like additional time to review the data. For these reasons AnSon will be unable to commence drilling by April 15, 1995.

Accordingly, AnSon requests that it be granted an extension until June 15, 1995 to commence drilling its wells pursuant to Order Nos. R-10167, R-10169, and R-10170.

Very truly yours,

William F. Carr

**Re: OBJECTION TO ADMINISTRATIVE APPLICATION**

*Administrative application of AnSon Gas Corporation  
for approval of an unorthodox well location for its  
Mary "33" Well No. 1  
SE/4NW/4 Sec 33, T16S, R38E, NMPM  
Lea County, New Mexico*

Dear Mr. Stogner:

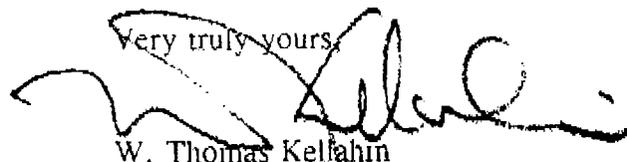

At the request of J. W. Neal, an attorney in Hobbs, I am representing Mrs. Mary Dobry who is the owner of the surface in the NW/4 of said Section 33.

We believe that as early as tomorrow, Anson Gas Corporation will seek administrative approval for an unorthodox well location for the referenced well. This matter was previously before the Division as Case 11023 heard on July 21, 1994. AnSon is now seeking to change the location.

Mrs. Dobry objects to the location because it will be located within her irrigation circle and if approved for drilling will irreparably damage her property.

Accordingly, we request that if and when AnSon files for administrative approval of this location, that it be set for hearing and we be provided an opportunity to appear before the Division to oppose the drilling of the subject well.

Very truly yours,

W. Thomas Kellahin

Re: Oil conservation Division Case Nos. 11023, 11024, and 11025:  
Applications of AnSon Gas Corporation for Compulsory Pooling and an  
Unorthodox Oil Well Location, Lea County, New Mexico

Dear Mr. LeMay:

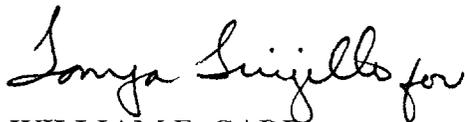

On August 9, 1994, the New Mexico Oil Conservation Division entered Orders R-10169, R-10167, and R-10170 granting the applications of AnSon Gas Corporation for compulsory pooling in each of the above-referenced cases. On October 18, 1994, the Commission granted an extension of time until January 15, 1995, to commence drilling wells in the pooled units. AnSon still intends to complete its wells as quickly as possible but has experienced substantial completion difficulties in its Anderson 33 #1 well and is unable to move as quickly in the development of the unit as it had hoped. In addition, AnSon is currently evaluating 3-D seismic data which recently has been shot and processed covering the relevant area of Section 33, and anticipates drilling once the data is evaluated.

William J. LeMay, Director  
December 29, 1994  
Page 2

Accordingly, AnSon Gas Corporation requests that these Orders be extended to permit it to commence the drilling of each of the wells on or before April 15, 1995.

Your attention to this request is appreciated.

Very truly yours,

A handwritten signature in cursive script that reads "Sonya Scijello for". The signature is written in dark ink and is positioned above the typed name of the signatory.

Re: Oil Conservation Division Case Nos. 11023, 11024 and 11025:  
Applications of AnSon Gas Corporation for Compulsory Pooling and an  
Unorthodox Oil Well Location, Lea County, New Mexico

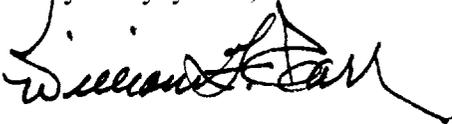

Dear Mr. LeMay:

On August 9, 1994 the New Mexico Oil Conservation Division entered Orders R-10169, R-10167 and R-10170 granting the applications of AnSon Gas Corporation for compulsory pooling in each of the above-referenced cases. AnSon intends to drill these wells at the earliest possible date but the rig which it proposes to use is now on an offsetting location where substantial mechanical problems have been experienced. This will delay for an extended period of time the completion of that well and, accordingly, the ability of AnSon to commence the drilling of the wells covered by the above-referenced orders.

Accordingly, AnSon Gas Corporation requests that these Orders be extended to permit it to commence the drilling of each of these wells on or before February 15, 1995.

Your attention to this request is appreciated.

Very truly yours,

Gentlemen:

By letter dated June 30, 1994, Mr. Wayne Gill advised that his mineral interest in the captioned unit was leased to Smith-Clement Exploration, Inc. Said lease was not filed of record prior to the time a force pooling application was filed by this office. Please be advised that an Order has issued from the Oil Conservation Division of New Mexico pooling your interest. Pursuant to said Order, please find enclosed copies of AFE for the referenced well. Please note on Page 4, Paragraph 5 that you have 30 days from receipt of the enclosed AFE in which to elect to participate in this test. Should you desire not to participate, you will be deemed to be a non-consenting working interest owner within this unit.

Sincerely,

Re: Case # 11024, Order #R-10167  
Case # 11025, Order #R-10170  
Case # 11023, Order #R-10169

Dear Chuck:

Following up on our telephone conversation last week, this will confirm that Smith-Clement Exploration, Inc. will participate in the three (3) wells to be drilled pursuant to the three (3) above cited pooling orders. Such elections are made, however, subject to item (7) of the Order which... "would allow any working interest owner who has committed to participation to back out of any well not started". Inasmuch as no well has been started on any of the three (3) units in which we were pooled, I question whether or not an election is due. In any event, if one (1) or more of the wells are to be drilled, kindly forward to us a standard Joint Operating Agreement.

Best Regards,

*Jeff Smith*
