IN THE MATTER OF THE APPLICATION  
OF ANSON GAS CORPORATION FOR COMPULSORY POOLING,  
LEA COUNTY, NEW MEXICO.

CASE NO. 11026

**APPLICATION**

ANSON GAS CORPORATION, through its undersigned attorneys, hereby makes application pursuant to the provisions of N.M.Stat. Ann. § 70-2-17, (1978), for an order pooling all mineral interests in the NW/4 NE/4 of Section 8, Township 17 South, Range 38 East, N.M.P.M., Lea County, New Mexico, and in support thereof states:

1. Applicant owns or represents approximately 93% of the working interest in the NW/4 NE/4 of Section 8, and Applicant has the right to drill thereon.
2. Applicant proposes to dedicate the above-referenced spacing or proration unit to its Schaap 8 Well No. 1 to be drilled at a standard oil well location in the NW/4 NE/4 of Section 8, to a depth of approximately 11,550 feet, more or less, to test any and all formations from the surface to the base of the Strawn formation.
3. Applicant has sought and been unable to obtain either voluntary agreement for pooling or farmout from certain interest owners in the NW/4 NE/4 of said Section 8.
4. Said pooling of interests will avoid the drilling of unnecessary wells, will prevent waste and will protect correlative rights.

5. In order to permit the Applicant to obtain its just and fair share of the oil and gas underlying the subject lands, all mineral interests should be pooled, and Applicant should be designated the operator of the well to be drilled.

WHEREFORE, Applicant prays that this application be set for hearing before an Examiner of the Oil Conservation Division on July 21, 1994 and, after notice and hearing as required by law, the Division enter its order pooling the lands, including provisions for Applicant to recover its costs of drilling, equipping and completing the well, its costs of supervision while drilling and after completion, including overhead charges, and imposing a risk factor for the risk assumed by the Applicant in drilling, completing and equipping the well.

Respectfully submitted,
