Mr. W.E. Jeffers  
P.O. Box 65  
Artesia, NM 88210

Dear Mr. Jeffers:

As Shown on this sketch which is derived from my survey of September 21, 1989, a well located at 2310 FSL 2310 FWL would be only 35 feet from the power line to the east, and only 40 feet south of the battery to the northwest.
