OIL CONSERVATION DIVISION
CASE NO. 9910

APPLICATION

COMES NOW HARVEY E. YATES COMPANY, by and through its undersigned attorneys, hereby makes application to the Oil Conservation Division for approval of an unorthodox well location, and in support thereof would show the Division:

1. Applicant is the operator of the E/2 SW/4 of Section 24, Township 19 South, Range 34 East, N.M.P.M., Lea County, New Mexico, and proposes to drill a well at a point 1650 feet from the South line and 2310 feet from the West line of said Section 24.

2. Applicant seeks an exception to the well location requirements of Rule 3 of Oil Conservation Division Special Rules and Regulations for the Lea-Bone Springs Pool (Order R-1827) to permit the drilling of the well at the above described unorthodox location to a depth to adequately test the Bone Springs formation.

3. A standard 80-acre spacing unit comprised of the E/2 SW/4 of said Section 24 will be dedicated to the well.

4. Approval of this application will afford applicant the opportunity to produce its just and equitable share of hydrocarbons underlying this spacing unit and will

otherwise be in the best interest of conservation, the prevention of waste and the protection of correlative rights.

WHEREFORE, Applicant prays that this application be set for hearing before a duly appointed Examiner of the Oil Conservation Division on April 18, 1990, and that after notice and hearing as required by law, the Division enter its order granting this application.

Respectfully submitted,

CAMPBELL & BLACK, P.A.
