LEA COUNTY, NEW MEXICO.

CASE NO. 10153

APPLICATION

CHEVRON U.S.A. INC., by its undersigned attorneys, hereby makes application to the Oil Conservation Division for approval of (1) a 320-acre non-standard proration unit, in the Eumont formation, (2) four unorthodox gas well locations and (3) simultaneous dedication in the Eumont-Yates-Seven Rivers-Queen (prorated) Gas Pool, Lea County, New Mexico, and in support thereof states:

1. Chevron seeks the creation of a 320-acre non-standard proration unit to be comprised of the S/2 N/2 and N/2 S/2 of Section 29, Township 20 South, Range 37 East, N.M.P.M., Lea County, New Mexico in the Eumont-Yates-Seven Rivers-Queen (prorated) Gas Pool by combining the existing 160-acre Eumont gas proration unit comprised of the S/2 NE/4 and N/2 SE/4 of Section 29 to which is dedicated Chevron's AB Reeves Well No. 3 (NSP Order R-1408) and the 160-acre Eumont gas proration unit comprised of the S/2 NW/4 and the N/2 SW/4 of Section 29 to which are dedicated Chevron's AB Reeves Wells 1 and 2.

2. Chevron seeks authority to simultaneously dedicate to this non-standard unit its AB Reeves Well No. 1 located 1,980 feet from the South line and 660 feet from the West line; its AB Reeves Well No. 2 located 1,980 feet from the North line and 660 feet from the West line; its AB Reeves Well No. 3 located 1,980 feet from the North and East lines and its proposed AB Reeves Well No. 4 to be drilled at a location 1,880 feet from the South line and 1,980 feet from the East line in the Eumont-Yates-Seven Rivers-Queen (prorated) Gas Pool all in Section 29, Township 20 South, Range 37 East, N.M.P.M., Lea County, New Mexico.

3. Chevron also seeks approval of the unorthodox well locations for its AB Reeves Wells Nos. 1 and 2.

4. Approval of this application will afford Chevron the opportunity to produce its just and equitable share of the reserves from the Eumont-Yates-Seven Rivers-Queen (prorated) Gas Pool and will otherwise be in the best interest of conservation, the prevention of waste and the protection of correlative rights.

WHEREFORE, Chevron U.S.A. Dear Mr. Bohling:

The subject application has been docketed for the November 14, 1990 hearing as **Case No. 10153**, please take special note as to the style in which this matter was advertised.

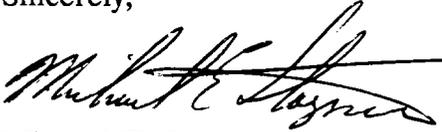

Please be prepared at that time to show cause why Chevron is "flip-flopping" the proration units on this lease in the following manner:

- two 160-acre non-standard units, S/2 N/2 and N/2 S/2 dedications, by Division Administrative Orders NSP-93 and 97;
- to a single 320-acre unit comprising the N/2 S/2 and S/2 N/2; and
- then to two 160-acre units comprising the N/2 NW/4 and S/2 SW/4 (NSP-1473(SD)) and the N/2 NE/4 and S/2 SE/4 (NSP-1408); and
- is proposing to reform the 320-acre unit comprising the S/2 N/2 and N/2 S/2 of the section.

Attention: Mr. William J. LeMay - Director

Gentlemen:

Chevron U.S.A. Inc. respectfully requests your approval of our administrative application for the subject Non-Standard Proration Unit, Unorthodox Gas Well Location and Simultaneous Dedication.

We are currently planning to drill the A. B. Reeves Well No. 4, and complete this well in the Eumont Yates 7 Rvrs Qn (Pro Gas) Pool. This well will be located 1880 feet FSL and 1980 feet FEL of Section 29, T-20-S, R-37-E, Lea County, New Mexico. This location will be within an existing 160-acre Eumont Gas Proration Unit currently dedicated to Chevron's existing A. B. Reeves Well No. 3 (NSP Order-1408). This location was chosen to avoid pipelines in the area and will be unorthodox in that it is less than 660 feet from the outer side boundary.

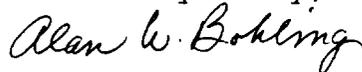

Chevron also desires to consolidate this 160-acre proration unit with the 160-acre proration unit currently dedicated to our A. B. Reeves Well Nos. 1 & 2 (S/2 NW/4 and N/2 SW/4, Section 29) to make a 320-acre proration

unit. This proposed 320-acre unit would comprise the S/2 N/2 and N/2 S/2 of Section 29 and be simultaneously dedicated to all four A. B. Reeves wells.

Please note that this same 320-acres was at one time (December 1, 1971) dedicated to A. B. Reeves Well Nos. 1 and 2 by Order No. R-4224. In 1983 when Well No. 3 was drilled and completed as a Eumont Gas well, the proration unit size for Well Nos. 1 and 2 was reduced to 160-acres comprising the N/2 SW/4 and S/2 NW/4 of Section 29. This left the remaining 160-acres comprising the S/2 NE/4 and N/2 SE/4 of Section 29 for dedication to Well No. 3. We now desire to re-consolidate the two 160-acre units to make one 320-acre unit and simultaneously dedicate all four wells.

In order to prevent waste, Chevron respectfully requests your approval of this administrative application under the provisions of Rule 104 (F). Attached are a map showing offset operators and a Form C-102. A copy of this letter with attachments are being furnished to the Offset Operators by Certified Mail, as their notice of this application.

ITEMS DISCUSSED: Mr. Stogner has been holding the subject NAPA Section 103 application pending reallocation of the Eumont acreage dedicated to the Reeves #1 + #2. Reallocation was requested by Mowlesey in an application for MSP and simultaneous dedication dated 9/23/85. This application has been approved, but not received.

Mr. Stogner indicated that the subject application will be approved as it was submitted; an effective and efficient filing will not be necessary. This will alleviate some problems in collections we are currently having with Northern Natural — also, no refund will be necessary.

Gentlemen:

Chevron U.S.A. Inc., formerly Gulf Oil Corporation, requested approval for a 160 Acre Non-Standard Proration Unit, by letter dated October 26, 1983, for the A. B. Reeves Well-No. 3. Approval was granted in Administrative Order NSP-1408, dated December 1, 1983. When we recently applied for a wellhead price ceiling category determination, under the NGPA of 1978, M. E. Stogner of the OCD found that the 160 acres dedicated to Well No. 3 were also dedicated to Well's No. 1 and 2 under Division Order No. R-4224.

In an effort to eliminate simultaneous dedication of acreage to Well No. 3, Chevron U.S.A. Inc. respectfully requests Administrative Approval for a 160 Acre Non-Standard Gas Proration Unit in the Eumont Gas Pool, comprising the S/2 of NW/4 and the N/2 of SW/4 of Section 29-T20S-R37E, Lea County, New Mexico, to be simultaneously assigned to Wells No. 1 and No. 2. The 160 Acre Non-Standard Gas Proration Unit in the Eumont Gas Pool, comprising the S/2 of NE/4 and the N/2 of SE/4 of Section 29-T20S-R37E, Lea County, New Mexico, shall remain dedicated to Well No. 3. In support thereof, Chevron U.S.A. Inc. states that the proposed Non-Standard Gas Proration Unit will meet the requirements of Rule 5(c) of the Oil Conservation Division Order No. R-1670 as follows:

1. The proposed unit consists of 160 Acres.
2. The proposed unit consists of Contiguous quarter-quarter sections.
3. The proposed unit lies wholly within a single government section in the Eumont Gas Pool.
4. The entire proposed unit may reasonably be presumed to be productive of gas from the Eumont Gas Pool.
5. The proposed unit does not exceed 5280' in length or width within the Eumont Gas Pool.

6. A copy of this application has been sent by Certified mail to all offset operators and operators owning interest in the proposed unit's boundary and shall serve as notification.

In support of this application, attached is a plat outlining the proposed Non-Standard Unit, the acreage to be dedicated to the proposed unit, and showing offset operated properties and wells.

In view of the facts submitted, Chevron U.S.A. Inc. requests that administrative approval of the subject 160 Acre Non-Standard Proration Unit be granted.

Yours very truly,

Gentlemen:

Attached is a copy of Chevron's administrative application for NMOCD approval of a Non-Standard Proration Unit, Unorthodox Gas Well Location and Simultaneous Dedication in the Eumont Yates 7 Rvrs Qn (Pro Gas) Pool.

We are currently planning to drill the A. B. Reeves Well No. 4, and complete this well in the Eumont Yates 7 Rvrs Qn (Pro Gas) Pool. This well will be located 1880 feet FSL and 1980 feet FEL of Section 29, T-20-S, R-37-E, Lea County, New Mexico. This location will be within an existing 160-acre Eumont Gas Proration Unit currently dedicated to Chevron's existing A. B. Reeves Well No. 3 (NSP Order-1408). This location was chosen to avoid pipelines in the area and will be unorthodox in that it is less than 660 feet from the outer side boundary.

Chevron also desires to consolidate this 160-acre proration unit with the 160-acre proration unit currently dedicated to our A. B. Reeves Well Nos. 1 & 2. This proposed 320-acre unit would comprise the S/2 N/2 and N/2 S/2 of Section 29 and be simultaneously dedicated to all four A. B. Reeves wells.

As an offset operator, if you do not have any objections to the attached application, please sign the enclosed waivers and mail the original and two copies to the NMOCD in Santa Fe and one

a copy to Chevron U.S.A. Inc. in Midland. We have enclosed self addressed, stamped envelopes for your convenience.

If you have any questions, please contact Mr. A. W. Bohling at (915) 687-7246. Your prompt consideration in the above matter is appreciated.

We are currently planning to drill the A. B. Reeves Well No. 4, and complete this well in the Eumont Yates 7 Rvrs Qn (Pro Gas) Pool. This well will be located 1880 feet FSL and 1980 feet FEL of Section 29, T-20-S, R-37-E, Lea County, New Mexico. This location will be within an existing 160-acre Eumont Gas Proration Unit currently dedicated to Chevron's existing A. B. Reeves Well No. 3 (NSP Order-1408). This location was chosen to avoid pipelines in the area and will be unorthodox in that it is less than 660 feet from the outer side boundary.

Chevron also desires to consolidate this 160-acre proration unit with the 160-acre proration unit currently dedicated to our A. B. Reeves Well Nos. 1 & 2. This proposed 320-acre unit would comprise the S/2 N/2 and N/2 S/2 of Section 29 and be simultaneously dedicated to all four A. B. Reeves wells.

As an offset operator, if you do not have any objections to the attached application, please sign the enclosed waivers and mail the original and two copies to the NMOCD in Santa Fe and one copy to the NMOCD in Hobbs. We would also request that you send

copy to the NMOCD in Hobbs. We would also request that you send a copy to Chevron U.S.A. Inc. in Midland. We have enclosed self addressed, stamped envelopes for your convenience.

If you have any questions, please contact Mr. A. W. Bohling at (915) 687-7246. Your prompt consideration in the above matter is appreciated.

Yours very truly,

Alex W. Bohling
