In re: Case No. 10177
Order No. R-9147-B

Mr. William J. Lemay, Director
Oil Conservation Division
State of New Mexico
P. O. Box 2088
Santa Fe, New Mexico 87504

Dear Mr. Lemay:

In accordance with and as a result of the captioned Order of the Oil Conservation Division, please be advised that BTA Oil Producers' 8808 JV-P Pardue "C" No. 1 Well located at an unorthodox oil well location 176 feet FSL and 1,550 feet FWL (Unit N) of Section 11, Township 23 South, Range 28 East, N.M.P.M., Eddy County, New Mexico, was shut-in and ceased producing hydrocarbons at 7:55a.m. (MST) on February 15, 1991.

BTA appreciates the Division, by the captioned order, approving our application for the 8808 JV-P Pardue "C" No. 1-Y Well.

At this time we would again apologize for any unnecessary time and effort expended by the Division for and on behalf of BTA because of the location of the subject well in the Southeast Quarter, Southwest Quarter of said Section 11.

BTA has operated in the State in New Mexico for the past 33 years as a reasonable prudent operator in cooperation with all State and Federal Authorities. We certainly intend to continue this relationship in the future and we will always strive to uphold our standing as a prudent operator.

Thank you for your every consideration.

Very truly yours,

Barry Beal
