*Case 8195*

Dear Sirs:

Please schedule a hearing on your docket on 25 May 1984 for the purpose of force pooling 40 acre proration units for the following well locations.

1. 1980' FNL & 1980' FEL Sec 5 T-20-S R-25-E  
NMPM, Eddy County, N.M. (Re-entry of the S.P.  
Johnson #1)

2. 1980' FNL & 1980' FWL Sec 5 T-20-S R-25-E  
NMPM, Eddy County, New Mexico

The target depths in each of these wells are between 7000' and 8000' depth and are expected to be oil zones.

The only remaining uncommitted interest in these tracts is traced to MGF Oil Corporation, P.O. Box 360 Midland, Texas 79702-0360. I have made repeated efforts to arrive at some agreement concerning their interest. Recently, they have requested that we simply force pool the interest in question pending ultimate determination as to its ownership.

1) The S.P. Johnson Well #1 was plugged rather than attempt recompletions into any horizons shallower than the Morrow Sand at approximately 9251' MD.

2) No electric log or resistivity log was ever run in the S.P. Johnson well, leaving considerable uncertainty over water saturations in the zones we are targeting.

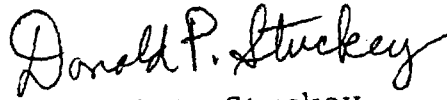

3) Logs of all offset wells indicate tight correlative intervals over the 7000-8000' depth range placing considerable risk as to reservoir extent where porosity occurs in the S.P. Johnson Well #1.

D.P. Stuckey -2-

For the three reasons stated previously, we are requesting that the maximum 200% penalty above the original payout be assessed.

Thank you for your assistance in this matter.

Sincerely,

A handwritten signature in cursive script that reads "Donald P. Stuckey". The signature is written in dark ink and is positioned above the printed name.

Case 81950 CONSERVATION DIVISION

MOTION TO DISMISS

COMES NOW Chama Petroleum Company, by and through its undersigned attorneys and hereby moves that the above-referenced case be dismissed and in support thereof, states:

1. On May 8, 1984, Donald P. Stuckey filed an application with the Oil Conservation Division seeking, among other things, an order pooling all mineral interests in the Upper Pennsylvanian Formation underlying the SE/4 NW/4 of Section 5, Township 20 South, Range 25 East, NMPM, Eddy County, New Mexico, to be dedicated to an oil well to be drilled at a standard location thereon.

2. That the SE/4 NW/4 of said Section 5 is located less than one mile from the boundary of the North Dagger Draw-Upper Pennsylvanian Pool.

3. That the Special Pool Rules for the North Dagger Draw-Upper Pennsylvanian Pool, provides for 160 acre oil spacing and proration units pursuant to Oil Conservation Division Order Nos. R-4691 A, B and C.

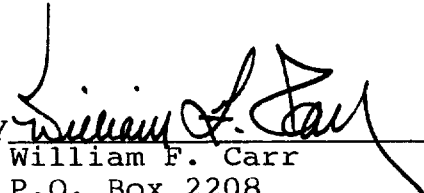

4. That the Special Pool Rules for the North Dagger Draw-Upper Pennsylvanian Pool apply to all spacing or proration units located within one mile of the outer boundary of said pool.

5. That Case 8195 should be dismissed for failure of the applicant to pool a standard Morrow oil spacing or proration unit for the well to be located in the SE/4 NW/4 of said Section 5, or, in the alternative, for failure to seek a non-standard spacing or proration unit for said well.

WHEREFORE, applicant requests that the above-referenced case be dismissed.

Respectfully submitted,

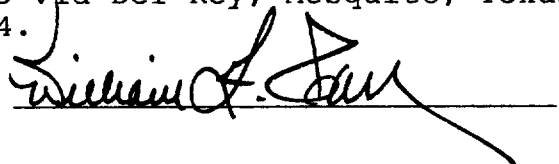

CAMPBELL, BYRD & BLACK, P.A.
