660' FSL and 660' FEL of
Section 14, T-24-S, R-28-E,
Eddy County, New Mexico

Gentlemen:

Pogo Producing Company ("Pogo"), as Operator of that certain Operating Agreement dated March 1, 1983 which covers the S $\frac{1}{2}$ of Section 14, T-24-S, R-28-E, Eddy County, New Mexico, proposes to drill a well to test the Atoka and Morrow formations at a location 660' FSL and 660' FEL of said Section 14. Since the proration unit for said well will be 320 acres, being the S $\frac{1}{2}$ of said Section 14, the proposed location is unorthodox and requires approval by the Oil Conservation Division. To obtain approval, Pogo has made application to the Commission by correspondence, a copy of which is attached.

Although not required by the New Mexico Division, Pogo's policy is to advise offset operators or owners of the pending hearing. Also, if you have no objection to our proposed location, we would like to be so advised. Accordingly, if you have no objection, please so signify by signing a copy of this letter in the space provided below and return it to the undersigned.

Your cooperation in handling this matter will be greatly appreciated. If you have any questions, please advise.

Yours very truly,

POGO PRODUCING COMPANY
