Dear Ms. Sanders:

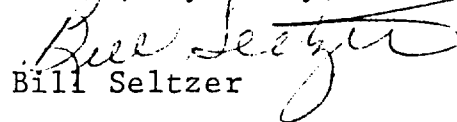

Pursuant to your letter of 10/23/84 I am enclosing AFE for the drilling of the #2 Speight to be located 1980 FWL and 1350 FNL of Section 28, T-16-S, R-37-E.

Amerind Oil Co. proposes to drill a Strawn test to approximately 11,600 feet at the above unorthodox location after the first of the year. This location will require approval of the ODC and will necessitate a compulsory pooling before the Oil Conservation Division for the reason several owners will not respond to our request to join in the drilling of said well.

If you desire to join us in drilling this proposed test well please execute the enclosed AFE and I will forward you and Operating Agreement for your execution. If you do not desire to join us in the drilling of said well, we request you to execute the Oil and Gas Lease forwarded to you last week.

Thank you for your help.

Yours very truly,

Bill Seltzer

Dear Jeff:

I rechecked my file and contacted our Midland office, where this application originated, to see if we had notified all parties. Apparently we notified everyone by letter on October 24, 1984. Enclosed is the letter written by Conrad Coffield to Florene. Note that copies of the letter and the application were sent to all parties, and Conrad Coffield's secretary verified this. Since the hearing date was given in the letter, I believe all parties had adequate notice. Please let me know if this is satisfactory.
