Attention Mr. Gilbert P. Quintana

Gentlemen:

Case No. 8528, Hardship Gas Well Classification, Bell Lake Unit 2 Well No. 6, Lea County, New Mexico

Conoco Inc. respectfully requests that the subject case be dismissed. We have recently installed an amine unit and gas compressor at this location and it appears that, for the present time, pipeline curtailment will not be a significant factor in keeping the well producing.

We appreciate your setting this matter for hearing. We intend to continue to monitor the market situation and the producing status of this well in case the need for hardship classification should become necessary in the future.

Yours very truly,

H. A. Ingram
Conservation Coordinator

Attention Mr. Gilbert P. Quintana

Gentlemen:

Case No. 8528, Hardship Gas Well Classification, Bell Lake Unit 2 Well No. 6, Lea County, New Mexico

Conoco Inc. respectfully requests that the subject case be continued to the Examiner Hearing to be held on April 10, 1985. An Amine Unit has recently been installed to serve this well. The additional time is needed to obtain a stabilized producing rate and to determine the minimum sustainable producing rate.

Your favorable consideration of this request will be appreciated.

Yours very truly,

H. A. Ingram
Conservation Coordinator
