Re: Gulf Oil Exploration

MMOCD Case 8597

R. R. Bell NCT-C, Well #5 Lea County, New Mexico

Dear Mr. Quintana:

On behalf of Gulf Oil Exploration and Production Company, I presented the referenced case at the hearing held last Wednesday, May 8, 1985.

I would appreciate you incorporating the following additional finding in the order approving this application. Because this is an old proration and spacing unit of 320 acres which at one time was dedicated to the Well #4, a Eumont Gas Well, Well #5, will recover gas reserves that would not have been recovered by the original well.

Accordingly, we would request the following:

"That Well #5 is expected to recover an additional 2,679.6 MCF of gas that would not have been recovered by Well #4".

"That Well #5 is necessary to effectively and efficiently drain a portion of the Eumont Gas reservoir covered by the proration unit which cannot be effectively and efficiently drained by any existing well or former well within the proration unit."

Please call me if you have any questions.

Thomas Jellahin
