Re: Case 8620 - Mesa's application for promulgation of  
Special Rules for the Scharb Bone Springs Pool, Lea  
County, New Mexico.

Gentlemen:

Western Oil Producers, Inc., will oppose Mesa's request for a limiting GOR of 14,000 cu.ft./Bbl. We feel it will lead to premature loss of reservoir energy and will compromise the correlative rights of others in the pool.

Operators in the pool are being notified of our protest by copy of this letter. If they agree with our position, we ask that they write a letter stating so and send copies to the OCD in Santa Fe, Gulf Oil Corporation, and Mesa Petroleum Co. Attached is a list of operators in the pools.

Yours very truly,

RE: Case 8620, Mesa's application for Promulgation of Special  
Rules for the Scharb Bone Spring Pool,  
Lea County, New Mexico

Gentlemen:

Marathon Oil Company is in opposition of Mesa's Request for a Limiting GOR  
of 14,000 cubic feet per barrel. The Scharb Bone Spring reservoir is  
a solution gas drive and raising the GOR to 14,000 cubic feet per barrel  
may result in a premature loss of reservoir energy. We feel the current  
GOR of 2,000 cubic feet per barrel is adequate for this reservoir.

RE: Case 8620 - Mesa's application

Gentlemen:

O'Neill Properties, Ltd., believes that a limiting GOR of 14,000 is too high for this particular reservoir, especially since the water-flood possibilities at this time don't appear very promising. We would, therefore, oppose Mesa's request for this limiting ratio.
