1. Applicant owns or represents approximately 50% of the working interest in and under the SE/4 of Section 36, and applicant has the right to drill thereon.

3. Applicant has sought and obtained either voluntary agreement for pooling or farmout from all other interest owners in the SE/4 of said Section 36, except for Texaco, Inc., Post Office Box 3109, Midland, Texas 79702, attention E. H. Watkins, owner of a 50% working interest.

4. Said pooling of interests and well completion will avoid the drilling of unnecessary wells, will prevent waste and will protect correlative rights.

WHEREFORE, applicant prays that this application be set for hearing before a duly appointed Examiner of the Oil Conservation Division on July 2, 1985, and that after notice and hearing as required by law, the Division enter its order approving the 160-acre spacing or proration unit and pooling the lands, including provisions for applicant to recover its costs of drilling, equipping and completing the well, its costs of supervision while drilling and after completion, including overhead charges, and imposing a risk factor for the risk assumed by the applicant in drilling, completing and equipping the well, approving the location of the well as proposed by applicant, and making such other and further provisions as may be proper in the premises.
