Pat Alston Ward c/o Bill Ward 5050 E. University, Suite 9B Odessa, Texas 79761

> Re: B. E. Shipp Estate #1 & #2 Wells NE/4 of Section 4-17S-37E Lea County, New Mexico

Dear Mrs. Ward:

Pennzoil Company plans to drill two (2) 11,500' Strawn tests on the captioned lands in the near future. The B. E. Shipp Est. #1 well will be located 1980' FNL & 1980' FEL of Section 4-17S-37E and the B. E. Shipp Est. #2 well will be located 660' FNL & 810' FEL of Section 4-17S-37E.

Our records reflect that you own an undivided 22/1024 unleased mineral interest in the NE/4 of Section 4-17S-37E. Inasmuch as we could not extend the lease you had granted W. C. Kimball, we ask that you grant Pennzoil a six (6) month lease providing for no bonus consideration and 1/4 royalty. Or, should you decide to participate in the drilling of these wells, please return an executed copy of the enclosed AFE for each well.

We wish to inform you that we have made two (2) separate applications to the Oil Conservation Division of New Mexico for an order pooling all mineral interests underlying the W/2 NE/4 (Shipp #1) and E/2 NE/4 (Shipp #2) of Section 4-17S-37E. As an owner of unleased minerals, if you are forced pooled, you would have the option of either participating or going non-consent. During the payout of the non-consent penalty, you would receive a 1/8 royalty interest and after payout has been reached, you would convert your royalty interest to a working interest.

Should you decide to lease, please execute the enclosed Paid-Up Oil and Gas Lease in the presence of a notary and return to the undersigned.

Should you have any questions, please feel free to contact this office.

Greg Davis Landman

GD/mk/enclosures

## OIL & GAS LEASE
