Re: Ray Westall application for SWD  
Westall Tennessee Federal No. 1-21  
1980 FSL & 660' FEL  
Section 21-19S-31E  
Eddy County, New Mexico

Gentlemen:

As an offset operator to the subject property, we have no objection to the disposal application as long as the disposal of water at this location is confined to the interval 2420-2581'.

If the disposed water was allowed to enter the old perforations from 2280-2354', we feel the recovery of oil from the Yates would be hindered.

Sincerely,

Hugh L. Boyt  
District Production Manager
