OIL CONSERVATION DIVISION

McHugh EXHIBIT NO. 2

CASE NO. 8945

Re: Continental Divide #1
E/2 Section 12-T25N-R2W
Rio Arriba County, New Mexico

Gentlemen:

Last November we mailed an Authority for Expenditure (AFE) instrument for your review which covered the anticipated drilling cost of the captioned well.

Your failure to respond by any means as to our proposed well resulted in a forced pooling action which was held on January 22, 1986.

A copy of the Order of the Division, Case No. 8788, Order No. R-8144 is enclosed for your files. Said Order was effective January 31, 1986. Per the Order itself, operations were to commence "on or before the first day of May, 1986". Due to access problems encountered with the Santa Fe National Forest, we were unable to commence our well but hope to do so by the end of the summer.

Enclosed are two copies of our AFE #0410010 for the Continental Divide #1 reflecting your 6.25% working interest. If agreeable, please execute and return one copy to my attention by Monday, July 21, 1986.

If you elect not to join, please contact me in order that I may discuss a far-mout arrangement.

In the event you elect not to join or respond to this well proposal, please be advised that we will again appear before the Oil Conservation Commission in an effort to force pool your interest.

The next hearing is scheduled for Wednesday, July 23, 1986 in Santa Fe and we will appear on the docket to present the pooling before the Commission once again.
