Gentlemen:

Foran Oil Company hereby proposes the drilling of an 11,800' Strawn test to be located at a legal location within the captioned lands. We anticipate the spacing unit to be the W/2 SW/4 of Section 8.

For the commitment of your interest in support of this test, Foran is respectfully offering the following terms:

1. Participate as to your proportionate share by paying the associated drilling costs as shown on the enclosed AFE. The proposed JOA is available for your review should you be interested in joining; or,

2. Farmout your interest in Section 7: E/2 SE/4 and Section 8: SW/4, T16S-R37E delivering a 75% net revenue interest, proportionately reduced, with the option after payout to convert any overriding royalty associated therewith to a 1/8 working interest, proportionately reduced, on the first commercial well, a 1/5 working interest, proportionately reduced on the second commercial well, and a 1/4 working interest, proportionately reduced, on any commercial wells drilled thereafter on the farmout lands.

Our seismic data is available for your review after your agreement to joint or farmout under mutually agreeable terms and a letter has been signed by both parties to that effect. These terms are the same terms we recently reached with Amerada.

Gentlemen:

As you are aware, Foran Oil Company is proposing the drilling of an 11,600' Strawn test to be located at a legal location within the captioned lands. We anticipate the spacing unit to be on an 80 acre basis consisting of the W/2 SW/4 of Section 8, T16S-R37E. Foran wishes to keep you advised of its proceedings before the New Mexico Conservation Commission and wishes formally to invite you to participate as to your proportionate share by paying the associated drilling costs as shown on the enclosed AFE.

This letter is not intended to offend you, but we are following this course as a formality pursuant to the January 6, 1988 compulsory pooling hearing in Santa Fe. We have appreciated your cooperation in the past and would like to offer you all or a portion of the Amerada and Sohio farms for this well. The JOA for this well will contain the same rates and provisions as that used in the Caudill #1-8 well.

Our proposed spud date will be within thirty (30) days of the Conservation Order and will accommodate the request of several other working interest partners to drill this well in 1988 rather than 1987. Our seismic data remains available for your review.

Your prompt response to this letter would be appreciated. If you have any questions regarding this matter, please do not hesitate to contact me. We have scheduled this hearing for January 6th to coincide with an unorthodox location hearing on the same day.

Very truly yours,

 Joseph Wm. Foran
 President
