Case 9320

Re: Preisa "AFF" State No. 1 Well
Township 24 South, Range 35 East, NMPM
Section 16: All
Lea County, New Mexico

Gentlemen:

Enclosed for filing, please find three copies of the Application of Yates Petroleum Corporation for an Unorthodox Well Location and an Exception to the Special Rules and Regulations of the Cinta Roja Pool, Lea County, New Mexico.

We ask that this matter be set for hearing before an Examiner on March 2, 1988.

Thank you.

Sincerely yours,

DICKERSON, FISK & VANDIVER

Chad Dickerson

BEFORE THE OIL CONSERVATION DIVISION
OF THE STATE OF NEW MEXICO

IN THE MATTER OF THE APPLICATION :
OF YATES PETROLEUM CORPORATION :
FOR AN UNORTHODOX WELL LOCATION :
AND AN EXCEPTION TO THE SPECIAL :
RULES AND REGULATIONS FOR THE :
CINTA ROJA POOL, LEA COUNTY, NEW :
MEXICO :

CASE NO. 9320

APPLICATION

COMES NOW Yates Petroleum Corporation, by its attorneys, and in support hereof, respectfully states:

1. Applicant is the operator of all formations from the surface through the base of the Morrow formation, underlying:

Township 24 South, Range 35 East, N.M.P.M.

Section 16: All

containing 640 acres, more or less,
and proposes to drill its Preisa "AFF" State No. 1 Well, at a point located 1,980 feet from the north line and 660 feet from the west line of said Section 16, to a depth sufficient to test all formations to the base of the Morrow formation, at approximately 16,500 feet.

2. The New Mexico Oil Conservation Division promulgated special rules and regulations for the Cinta Roja Pool, which

provide, among other things, well location requirements. The proposed well is unorthodox under the special rules and regulations for the Cinta Roja Pool.

3. The Applicant seeks an exception to the well location requirements of Rule 104 of the Oil Conservation Division and to the special rules and regulations of the Cinta Roja Pool to permit the drilling of the well at the above mentioned unorthodox location for all gas pools which may be developed on 320-acre or 640-acre spacing, as applicable.

4. The approval of this Application will afford Applicant the opportunity to produce its just and equitable share of oil and gas, will prevent economic loss caused by the drilling of unnecessary wells, avoid the augmentation of risk arising from the drilling of an excessive number of wells, and will otherwise prevent waste and protect correlative rights.

WHEREFORE, Applicant prays:

A. That this Application be set for hearing before an examiner and that notice of said hearing be given as required by law.

B. That upon hearing the Division enter its order granting Applicant permission to drill its Preisa "AFF" State No. 1 Well at a point 1,980 feet from the north line and 660 feet from the west line of said Section 16.

C. And for such other and further relief as may be
just in the premises.

YATES PETROLEUM CORPORATION

ATTENTION: Mr. William LeMay

RE: Preisa AFF State #1
1980' FNL and 660' FWL
Section 16-T24S-R35E
Lea County, New Mexico

Dear Sir:

Yates Petroleum Corporation has been placed on the hearing docket for March 2, 1988, for the non-standard location for the captioned well.

The reason for requesting this non-standard location is geological. This is our preferred location as we feel that it is the best location to drill the 16,500' Morrow test.

Enclosed please find a copy of the lease map showing the offsetting lease operators, a topographic map of the area and a survey plat. Offset operators have been notified of our intentions by certified mail, via a xerox copy of this letter. A copy of the certifications are enclosed.

Formations that we expect to drill through are: Delaware, Bone Springs, Wolfcamp, Strawn, Atoka and Morrow. Our expected total depth is 16,500' Morrow.

Should you have any questions regarding this matter, please do not hesitate to call me at 505-748-1471.

Thank you.

Very truly yours,

YATES PETROLEUM CORPORATION

Rusty Jernigan
