Dear Mr. LeMay:

Exxon's July 25, 1988 letter of application on this subject contained a minor error in the third paragraph. The second from the last sentence should have read "the proposed unorthodox location for well No. **35** is almost an exact 20-acre in field location and ideal for any future CO2 project." We inadvertently referred to well No. 34 in this sentence rather than well No. 35. We regret this error and hope it has not caused any inconvenience. By copy of this letter we are notifying offset operators and the NMOCD District 1 office of this correction.

Sincerely,

Charlotte Harper
