Gentlemen:

On November 15, 1984, we furnished you with a summary of completed well cost for a flowing well covering the above.

We advised you that an amended well cost will be furnished when it became necessary to install a pumping unit and associated equipment in order to maintain the production of oil and gas.

We enclosed herewith the actual well cost for the pumping unit and associated expenses. We respectfully request the Division to accept the additional cost figures as reasonable well costs for placing a pumping unit, and associated expenses, on the above well.

Yours very truly,

Bill Seltzer
